Washington Safe Patient Handling Steering Committee

Creating a Culture for Safe Patient Handling: The Washington Legislation and Beyond

April 30, 2008

Doubletree Hotel, SeaTac Airport

Exhibitor Information

We invite your participation as an exhibitor for the Safe Patient Handling conference, jointly sponsored by the Washington Safe Patient Handling Steering Committee and the University of Washington's Northwest Center for Occupational Health and Safety. We anticipate strong participation from across the state and the region, with many of the attendees being hospital personnel with a very clear focus on developing safe patient handling programs in their institutions. This will provide an excellent opportunity to display and demonstrate your patient handling and other patient safety products or programs.

The Washington Legislature passed the Safe Patient Handling Act in 2006 with staged implementation of different program elements. The conference provides an educational forum for hospital administrators, healthcare providers who perform frontline patient handling activities, health and safety managers, facility managers and designers, and others to share knowledge and experiences in the development of safe patient handling programs, practices, and facilities. Many Washington hospitals are currently assessing their patient handling risks and exploring possibilities for purchase of patient handling equipment.

The conference will run from 8 am to 4 pm with extended breaks for attendees to visit exhibits and view products that will be discussed in the educational sessions. To encourage participation, the refreshments and lunch buffet will be served in the exhibition hall. The tentative conference schedule follows on the next page for your reference.

Cost of Exhibit Space

One 10'x10' booth	\$450
Each additional space	\$350

One 8' table and one electrical outlet are complimentary with each booth.

To secure your exhibit space, please complete the following application.
