

Visit the West— Family Medicine at its Best

Welcome to the University of Washington's Family Medicine Residency Network. The Network consists of 18 family medicine residency programs in Washington, Wyoming, Alaska, Montana, and Idaho (WWAMI) providing a variety of training opportunities including serving rural and underserved populations. Each residency program is autonomous and has a unique character, so prescreening, interview schedules, and the selection process are program distinctive.

The WWAMI Network recruits residents from all over the country. We hope that after a virtual visit you will come, in person, and visit the programs that interest you.

You may navigate to all of the WWAMI programs from www.wwaminetwork.org.

Thanks for your interest in the WWAMI Network, and we look forward to speaking with you soon.

Nancy Stevens, MD, MPH, Director
WWAMI Family Medicine Residency Network
