RECOMMENDED EXERCISE

Chair Rise Exercise

What it does: Strengthens the muscles in your thighs and buttocks.

Goal: To do this exercise without using your hands as you become stronger.

How to do it:

- 1. Sit toward the front of a sturdy chair with your knees bent and feet flat on the floor, shoulder-width apart.
- 2. Rest your hands lightly on the seat on either side of you, keeping your back and neck straight, and chest slightly forward.
- 3. Breathe in slowly. Lean forward and feel your weight on the front of your feet.
- 4. Breathe out, and slowly stand up, using your hands as little as possible.
- 5. Pause for a full breath in and out.
- 6. Breathe in as you slowly sit down. Do not let yourself collapse back down into the chair. Rather, control your lowering as much as possible.
- 7. Breathe out.

Repeat 10-15 times. If this number is too hard for you when you first start practicing this exercise, begin with fewer and work up to this number.

Rest for a minute, then do a final set of 10-15.
