Joey Liao (FIUTS Student Board VP) provides an overview of the Foundation for International Understanding Through Students (FIUTS). Their office is located in HUB 206. FIUTS helps international students make a smooth transition into the university community. They produce programs to promote a global community on the UW campus, such as their homestay program. For more information regarding FIUTS programming visit: http://www.fiuts.org/events/calendar.

Aloe Yan (FIUTS Liaison to the GPSS) shares that over 30% of participants in FIUTS are graduate students. While FIUTS is a nonprofit organization, the FIUTS Student Board is a registered student organization, and they are currently recruiting. The application is due April 4th, and a GPSS Liaison position is open.

The 2003 CMP identified a total of 68 development sites that collectively generated a capacity of approximately 8.3 million gross square feet of space. The University officially requested a growth allowance of 3 million gross square feet of space, and is approaching the identified growth limit.
U District Proposed Zoning.
GROWTH PROFILE

1. Enrollment trends – campus population is expected to grow by 22% from 2014 to 2030.
2. Space needs model – using the model to predict space needs – need 6 million gsf.
3. Benchmarking – looking at other peer institutions.
4. Historical growth trends – 300,000 gsf per year.
5. Industry and innovation – more opportunities to work with innovators on campus.
Development History / Projection Analysis

Development history reflects periods of growth and no growth based on funding.

On average, the UW introduced roughly 300,000 GSF per year of new construction from 1994 to 2013.

If the University was to grow by the same rate it has over the last 10 years, it would suggest a need for approximately 6 million gsf of new construction over the next master plan period.
