RE: Master of Cybersecurity and Leadership Five-Year Review (2017-2018)

This memo describes outcomes from the March 1, 2018 Graduate School Council meeting to discuss the Master of Cybersecurity and Leadership five-year review. This degree is offered by the Institute of Technology and the Milgard School of Business at the University of Washington Tacoma.

The Council commends the faculty and staff for the work they have invested in building this degree program.

The following recommendations were discussed during the council meeting:

- Engage in systematic tracking of graduates
- Encourage the Institute of Technology and UWT Chancellor's office to support consistent leadership of the program
- Continue to support underrepresented minority students

The Graduate School Council recommends that the degree program be granted continuing status, with subsequent review to occur in coordination with the Institute of Technology's program review (2021-2022). We concur with the Graduate School Council's recommendation.
