

My Transition Story

My name is Brittney. I am 19 years old. My disabilities are Panhypopituitarism and I am deaf. I went to school at Shadle Park High School. I was in Special Ed and Deaf Ed classes. School was fun. I had a lot of friends. I learned math, spelling, reading and I had a strive job.

I visited Images on Thursdays after winter break. I was scared. I cried. My Interpreter followed the city bus until I could do it myself. After semester break I started Images full time. I like Images. School is hard. We have a lot of meetings. The Speaker's talk about finding jobs and finding a house. I am learning to be Independent.
