

ANNOUNCEMENTS

Next Early Career Injury Investigator Research Network (EIIRN) Meeting

The next Early Career Injury Investigator Research Network (EIIRN) meeting on **February 18th at 11AM** at HIPRC. Graduate students, post-docs, T32 trainees, and early career investigators are invited to meet and mingle. There will be snacks!

Attention HIPRC Faculty: Tracking Outgoing Grant Proposals

We need your assistance to track outgoing proposals. If you are planning a grant proposal submission in the coming year, please use the catalyst survey link below to provide the name of the PI, title of the proposal, sponsor, and date/month of submission.

HIPRC Catalyst Survey: <https://catalyst.uw.edu/webq/survey/harriet2/258796>

Volunteer, Joy Frye, on Developing Injury Prevention Messaging

Joy Frye, a surgical technologist at Harborview Medical Center (HMC), has been volunteering with HIPRC to develop messages for the HMC electronic message boards since early Fall 2014. Joy became interested in outreach and public messaging when she noticed the large number of children coming into HMC during Summer 2014 in need of surgery after sustaining injuries from riding lawn mowers. She connected with Dr. Monica Vavilala here at HIPRC and began volunteering to create messages to increase safety awareness. Joy has been at HMC since 2002 and has developed an interest in preventing injuries among children. Since she began volunteering at HIPRC, Joy has created messages designed to catch the attention of patients at HMC and educate them about Halloween candy, winter sports safety, gas fireplace burns and gun safety. If you are interested in working with Joy to create an injury prevention message, she will be in the office on Fridays in room #4047, or you can contact her at joyjw@uw.edu.

HIPRC IN THE PRESS

Push for New Distracted Driving Laws for WA State

Dr. Beth Ebel, MD, MSc, MPH (Associate Professor of Pediatrics, Adjunct Associate Professor of Epidemiology and Health Services) is featured in a video segment and interview on distracted driving in Washington State. Dr. Ebel states that, "Our current law talks about a ban on texting. But it doesn't say much about posting to Facebook or checking your stock trades." Dr. Ebel and the [Washington State Traffic Safety Commission](http://www.wa.gov/traffic-safety-commission) are pushing lawmakers to increase penalties add restrictions to what drivers can do with their phone on the road.

JOURNAL CLUB SEMINAR SCHEDULE

Section: **Violence**
Lead: [Dr. Ali Rowhani-Rahbar, MD, PhD, MPH \(Assistant Professor of Epidemiology\)](#)
Date/Time: Friday, February 6th, 1-2 PM

Section: **Injury Care**
Lead: [Dr. Saman Arbabi, MD, MPH, FACS \(Professor of Surgery\)](#)
Date/Time: Friday, February 13th, 1-2 PM

Section: **Traumatic Brain Injury (TBI)**
Lead: [Dr. Monica S. Vavilala, MD \(Professor of Anesthesiology and Pediatrics\)](#)
Date/Time: Friday, February 20th, 1-2 PM

All Journal Club Seminars will be held in the HIPRC Conference Room (#4075), [HMC Patricia Steel Building](#) 

HIPRC WEEKLY WORK IN PROGRESS (WIP)

Presenter: [Dr. Jeffrey Jarvik, MD, MPH \(Professor of Neurological Surgery, Radiology, and Health Services; Adjunct Professor of Pharmacy, and Orthopedics\)](#)
Topic: The CHASE Alliance - Bringing Together Health Services Researchers at UW
Date/Time: Wednesday, February 11th, 1-2 PM

Presenter: [Dr. Shan Liu, PhD, MS \(Assistant Professor of Industrial & Systems Engineering\)](#)
Date/Time: Wednesday, February 18th, 1-2 PM

There will be no WIP on Wednesday, February 4th due to the monthly Faculty Meeting.

All WIPs will be held in the HIPRC Conference Room (#4075), [HMC Patricia Steel Building](#)

SUBMISSIONS FOR NEWS BULLETIN

Please submit your news items or press release announcements via email to hiprc@uw.edu with "BULLETIN" in subject line.

Submission deadline for the next bulletin is **Wednesday @ 1pm**.

Click on the link next to this image throughout the bulletin for Google maps directions to events.

JOB OPPORTUNITIES

Position: Research Scientist - Recovery after Traffic Injury
Location: Center for Disability Research, Liberty Mutual Research Institute for Safety
Hopkinton, Massachusetts

Application deadline: April 15th

We are recruiting a Research Scientist to develop, direct, and implement new studies on understanding and improving recovery after traffic injury. This new research program will emphasize the process of recovery, early identification of risks for poor outcomes, and timely, innovative interventions, designed to prevent delayed recovery and prolonged disability. The Scientist will design and implement original investigations that may include prospective longitudinal studies, secondary analyses of national and claims data, clinical and non-clinical interventions. The Scientist will also have the opportunity to collaborate on other studies across the Institute. This is a fully-salaried permanent position; compensation and benefits are excellent. Qualifications include doctoral-level training with research experience in a related relevant field – such as psychology, rehabilitation, physical medicine, or public health.

For more information about the Liberty Mutual Research Institute for Safety and its programs, please visit our [website](http://www.libertymutual.com). Interested candidates are encouraged to send a CV and statement of interest to Dr. Glenn Pransky, Director, Center for Disability Research, Liberty Mutual Research Institute for Safety, by e-mail to Glenn.Pransky@LibertyMutual.com.

FUNDING OPPORTUNITIES

Spring 2015 round of the Royalty Research Fund (RRF)

Due Date: Monday, March 2nd, 5PM PST
Awards Announced: Monday, June 15th
Award Amount: Maximum of \$40,000

Details: Unlike agency-funded grants, RRF grants are not awarded to supplement or continue existing successful research programs. The purpose of the Royalty Research Fund (RRF) is to advance new directions in research, particularly in disciplines for which external funding opportunities are minimal, and/or for faculty who are junior in rank, and/or in cases where funding may provide unique opportunities to increase applicants' competitiveness for subsequent funding. The RRF proposal submission and review process is electronic - all proposals must be submitted using SAGE (System to Administer Grants Electronically). The RRF application consists of an eGC1 (electronic Grant and Contracts Form 1, created online in SAGE), the proposal documents, and the suggested reviewers memo. The proposal documents are gathered into a single PDF file and attached electronically to the eGC1. The RRF application instructions, including specific directions for completing the eGC1, are currently available at the Office of Research [web site](http://www.hiprc.org).

Please don't hesitate to contact the RRF administrative staff if you have questions about the program; new applicants should contact Peter Wilsnack, doogieh@uw.edu, (685-9316) and existing awardees should contact Barbara Thompson, bthompso@uw.edu (616-9089). Questions about SAGE and the eGC1 should be directed to the SAGE help desk, sagehelp@uw.edu, (685-8335).

Department of Justice (DoJ) and National Institute of Justice (NIJ) New Solicitations Graduate Research Fellowship in Science, Technology, Engineering, and Mathematics

Application deadline: March 30th

NIJ is seeking proposals for innovative doctoral dissertation research in science, technology, engineering, or mathematics that is relevant to providing solutions to better ensure public safety, prevent and control crime, and ensure the fair and impartial administration of criminal justice in the United States. The NIJ Graduate Research Fellowship in Science, Technology, Engineering, and Mathematics provides awards to accredited academic institutions to support such graduate research leading to doctoral degrees.

Research into the Use of Suicide Prevention and Intervention Strategies by Law Enforcement Agencies

Application deadline: April 2nd

NIJ is seeking proposals for innovative, rigorous research to identify and characterize the officer suicide prevention and intervention strategies currently being used by law enforcement agencies in the United States and, potentially, elsewhere. NIJ is particularly interested in understanding the rationale for the adoption of a particular strategy and what evidence may exist regarding its efficacy.

Research and Evaluation on the Investigation and Adjudication of Campus Sexual Assault

Application deadline: April 6th

NIJ is seeking proposals for research and evaluation related to the investigation and adjudication of sexual assaults on college and university campuses. The White House Task Force to Protect Students From Sexual Assault identified a need to improve understanding of current practices in campus investigation and judicial decision-making involving student-on-student sexual assault. In response, NIJ is seeking proposals to examine:

- Current or new investigation practices and protocols used in the handling of campus sexual assault cases; and/or
- Current or new adjudication practices and protocols used in the handling of campus sexual assault cases.

Postdoctoral Fellowship on Violence Against Women: Intimate Partner Violence, Sexual Violence, Teen Dating Violence and Stalking

Application deadline: April 7th

NIJ is seeking proposals to support the scholarship of up to three promising postdoctoral researchers to conduct original data collection and/or secondary data analyses on violence against women (intimate partner violence, sexual violence, teen dating violence, stalking) under the supervision of a mentor. Any specific topic that offers important insights into research on violence against women will receive consideration.

Research and Evaluation on Violence Against Women: Intimate Partner Violence and Sexual Violence

Application deadline: April 7th

NIJ is seeking proposals for research and evaluation on violence against women, and specifically intimate partner and sexual violence. For example, NIJ is interested in proposals to examine the effectiveness of specialized police and court-based units, services, and methods related to intimate partner and sexual violence. NIJ is also interested in research on the development, adaptation, and testing of screening tools used for the identification of intimate partner violence in family court proceedings-specifically for cases involving child custody. Although specific areas of interest have been identified, other topics that offer important insights into violence against women will also be accepted for review.

FUNDING OPPORTUNITIES (CONTINUED)

Department of Justice (DoJ) and National Institute of Justice (NIJ) New Solicitations (continued)

Research and Evaluation on Children Exposed to Violence

Application deadline: April 8th

NIJ is seeking multidisciplinary research and evaluation proposals related to childhood exposure to violence. Such violence may include children who are direct victims and/or bystanders or observers of various forms of violence in the home, school, or community, including but not limited to peer victimization, bullying, harassment, child maltreatment, domestic violence, and community violence. Other types of violence to which children are exposed may be addressed, with the exception of media violence (e.g., television and movie violence, music advocating aggression, and violent video games). In particular, NIJ seeks proposals that address justice system responses to children identified as being exposed to violence; polyvictimization and multisystem involvement; and resilience and help-seeking.

Social Science Research on Implementation, Dissemination, and Translation

Application deadline: April 9th

NIJ seeks proposals for funding projects to study how criminal justice practitioners use research in their decision-making processes and how they implement evidence-based programs or practices. NIJ proposes two distinct research activities under this solicitation.

- Incorporating the Use of Research in Policy Decisions.
- Implementation Studies.

Applicants may apply to one or both sections of the solicitation; however, proposal titles should clearly identify the section of the solicitation for which the proposal is being submitted.

Secondary Analysis of the 2010 National Intimate Partner and Sexual Violence Survey (NISVS) Data: General Population and American Indian and Alaska Native Samples

Application deadline: April 9th

NIJ seeks proposals for secondary data analysis of the 2010 National Intimate Partner and Sexual Violence Survey (NISVS) data. Noting a critical need for a national surveillance system that would produce frequent, consistent, and reliable data on the magnitude and nature of intimate partner violence, sexual violence, and stalking using consistent definitions and survey methods to evaluate trends over time, the CDC's National Center for Injury Prevention and Control (NCICP), in collaboration with NIJ and the Department of Defense (DOD), developed the National Intimate Partner and Sexual Violence Survey (NISVS). The collaborative effort among federal agencies was motivated by the need to improve our understanding of IPV, SV, and stalking in the civilian, military, and American Indian (AI) and Alaska Native (AN) populations.

Research on Bias Crime Victimization

Application deadline: April 13th

NIJ is seeking proposals for research and evaluation relating to bias crime (a.k.a. hate crime) victimization. As compared with analogous crimes, bias crime is associated with more negative outcomes for victims and communities. NIJ is particularly interested in funding research to:

- Develop and test screening and/or assessment tools to identify bias crime victims.
- Conduct localized victimization surveys using new and innovative sampling strategies to understand hate crime among immigrant and other understudied communities.
- Explore the use of non-traditional data sources to track bias crime victimization.

Research and Evaluation Examining Violence Against American Indian and Alaska Native Women: Domestic Violence, Homicide, Intimate Partner Violence, Sex Trafficking, Sexual Violence, Stalking, and Teen Dating Violence

Application deadline: April 15th

NIJ is seeking proposals for research and evaluation that will examine violence and victimization experienced by American Indian (AI) and Alaska Native (AN) women living in Indian Country and Alaska Native villages to produce a deeper understanding of the issues faced by Native American women and help formulate public policies and prevention strategies to decrease the incidence of violent crimes committed against AI and AN women. NIJ is especially interested in research and evaluation related to violence against AI and AN women in the areas of domestic violence, homicide, intimate partner violence, sex trafficking, sexual violence, stalking, and teen dating violence.

Applicants must register with Grants.gov prior to submitting an application.

For all NIJ Funding Opportunities and application details, please visit their website: <http://nij.gov/funding/Pages/current.aspx>

ANNOUNCEMENTS

Safe Gun Storage event in Fife, WA

This event was sponsored by HIPRC, Seattle Children's Hospital, Mary Bridge Children's Hospital, LOK IT UP, Safe Kids, Tacoma/Pierce County Health Department, and SPORTCO. This event was the second in a series of four planned events around the State. The Seattle event was held in December. Additional events are planned for Snohomish County and Central Washington later this Spring. They gave out 380 lock boxes (67 more than last event), approximately 25 trigger locks (20 more than last event) and received \$971.31 in donations toward the Gun Safety Fund. **Photos from the event can be found on pg. 2**

HIPRC participants included:

- Monica Vavilala, MD, (HIPRC Director, Professor of Anesthesiology and Pediatrics)
- Arun Ayyagari (Monica's husband)
- Ali Rowhani-Rahbar, MD, PhD, MPH (HIPRC Methods Core Director & Violence Section Lead, Assistant Professor of Epidemiology)
- Lauren Whiteside, MD, MS (Acting Instructor of Emergency Medicine)
- Rosemary Grant, RN, BSN, CPHQ (Research Coordinator for Anesthesiology)
- Harriet Saxe, JD (HIPRC Program Manager)
- Brianna Mills, MA (HIPRC Methods Core Staff, PhD student in Epidemiology)

The event was covered by the media, which can be found here:

http://www.thenewstribune.com/2015/01/31/3616935_fife-store-draws-big-crowd-with.html?rh=1

If you would like a lockbox from Saturday's event, they are requesting a \$50 donation to the Gun Safety Fund. If interested, please contact Stephanie Hall (Stephanie.Hall@seattlechildrens.org).

Staff Meeting

There will be a staff meeting on **Monday, February 9th from 1-2PM.**

Next Early Career Injury Investigator Research Network (EIIRN) Meeting

Consumer Product Safety Commission (CPSC) Pool Safely Grant Program (PSGP)

Application deadline: March 19th

Maximum grant amount: \$250,000

CPSC is pleased to announce the *Pool Safely* Grant Program (PSGP), listed under Funding Opportunity Announcement (FOA) CPSC-15-001.

This opportunity is open to state and local governments that can demonstrate that they have enacted or amended a state or local law that meets the requirements specified in Section 1406 of the VGB Act (15 U.S.C. § 8005) and that the applicant provides for enforcement of the law. Once grant applications have been reviewed and scored, CPSC anticipates awarding a total of \$1 million in awards. Grantees will implement enforcement and education programs to prevent the drowning and drain entrapment of children in pools and spas, as authorized under Section 1405 of the Virginia Graeme Baker Pool and Spa Safety Act. Additional information and technical assistance may be found at <http://poolsafely.gov/grants/VGBFY15>.

If you have any questions regarding this funding opportunity, please contact Ann Piesen, CPSC Grant Manager at 301.504.7261.

HIPRC IN THE PRESS

Push for New Distracted Driving Laws for WA State

Dr. Beth Ebel, MD, MSc, MPH (Associate Professor of Pediatrics, Adjunct Associate Professor of Epidemiology and Health Services) is featured in a King 5 News video segment and interview on distracted driving in Washington State. Dr. Ebel states that, "Our current law talks about a ban on texting. But it doesn't say much about posting to Facebook or checking your stock trades." Dr. Ebel and the Washington State Traffic Safety Commission are pushing lawmakers to increase penalties add restrictions to what drivers can do with their phone on the road.

Original article: <http://www.king5.com/story/news/local/2015/01/23/distracted-driving-laws-washington-study/22204489/>

HIPRC Core Member Dr. Beth Ebel Interviewed by KUOW on New Distracted Driving Law

Distracted driving and cell phone use are working their way further into law. Listen to Dr. Beth Ebel, MD, MSc, MPH (Associate Professor of Pediatrics, Adjunct Associate Professor of Epidemiology and Health Services) explain why she supports the Washington Senate bill that would expand the current distracted driving laws to include a ban of all use of a handheld device while driving.

Sports Concussion in Adolescents: Prevention and Treatment Webinar

Host: Society for Adolescent Health and Medicine (SAHM)

Presenter: Cora Breuner, MD, MPH

Date/Time: Friday, February 17th, 10-11:30AM

Register: <https://register.adolescenthealth.org/events/registration.aspx?event=WEB0215>

Concussions are one of the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. As many as 3,900,000 sports-related and recreation-related concussions occur in the United States each year and can occur in any organized or unorganized sport or recreational activity. The vast majority of concussions occur without loss of consciousness. Concussions leave the young athlete especially vulnerable to greater injury and even death. Despite having generally recognized return to play standards for concussion and head injury, some affected youth athletes are prematurely returned to play resulting in actual or potential physical injury or death. In this workshop appropriate critical evaluation skills will be discussed including the determination.

JOURNAL CLUB SEMINAR SCHEDULE

Section: Traumatic Brain Injury (TBI)

Lead: Dr. Monica S. Vavilala, MD (Professor of Anesthesiology and Pediatrics)

Date/Time: Friday, February 20th, 1-2 PM

Section: Violence

Lead: Dr. Ali Rowhani-Rahbar, MD, PhD, MPH (Assistant Professor of Epidemiology)

Date/Time: Friday, February 27th, 1-2 PM

Section: Global Injury

Lead: Dr. Charles Mock, MD, PhD, MPH, FACS (Professor of Global Health, Surgery, and Epidemiology)

Date/Time: Friday, March 6th, 1-2 PM

All Journal Club Seminars will be held in the HIPRC Conference Room (#4075), [HMC Patricia Steel Building](#)

HIPRC WEEKLY WORK IN PROGRESS (WIP)

Presenters: [Roxanne Guiney, BA](#) (Program Coordinator) and [Vivian Lyons, BS](#) (Research Assistant)

Topic: Teach TBI

Date/Time: Wednesday, February 18th, 1-2 PM

Presenter: [Brianna Mills, MA](#) (Methods Core Staff Member, PhD student in Epidemiology)

Date/Time: Wednesday, February 25th, 1-2 PM

There will be no WIP on Wednesday, March 4th due to a Faculty Meeting.

All WIPs will be held in the HIPRC Conference Room (#4075), [HMC Patricia Steel Building](#) 

FUNDING OPPORTUNITIES

Department of Justice (DoJ) and National Institute of Justice (NIJ) New Solicitations Graduate Research Fellowship in Science, Technology, Engineering, and Mathematics

Application deadline: March 30th

NIJ is seeking proposals for innovative doctoral dissertation research in science, technology, engineering, or mathematics that is relevant to providing solutions to better ensure public safety, prevent and control crime, and ensure the fair and impartial administration of criminal justice in the United States. The NIJ Graduate Research Fellowship in Science, Technology, Engineering, and Mathematics provides awards to accredited academic institutions to support such graduate research leading to doctoral degrees.

Research into the Use of Suicide Prevention and Intervention Strategies by Law Enforcement Agencies

Application deadline: April 2nd

NIJ is seeking proposals for innovative, rigorous research to identify and characterize the officer suicide prevention and intervention strategies currently being used by law enforcement agencies in the United States and, potentially, elsewhere. NIJ is particularly interested in understanding the rationale for the adoption of a particular strategy and what evidence may exist regarding its efficacy.

Research and Evaluation on the Investigation and Adjudication of Campus Sexual Assault

Application deadline: April 6th

NIJ is seeking proposals for research and evaluation related to the investigation and adjudication of sexual assaults on college and university campuses. The White House Task Force to Protect Students From Sexual Assault identified a need to improve understanding of current practices in campus investigation and judicial decision-making involving student-on-student sexual assault. In response, NIJ is seeking proposals to examine:

- Current or new investigation practices and protocols used in the handling of campus sexual assault cases; and/or
- Current or new adjudication practices and protocols used in the handling of campus sexual assault cases.

Postdoctoral Fellowship on Violence Against Women: Intimate Partner Violence, Sexual Violence, Teen Dating Violence and Stalking

Application deadline: April 7th

NIJ is seeking proposals to support the scholarship of up to three promising postdoctoral researchers to conduct original data collection and/or secondary data analyses on violence against women (intimate partner violence, sexual violence, teen dating violence, stalking) under the supervision of a mentor. Any specific topic that offers important insights into research on violence against women will receive consideration.

Research and Evaluation on Violence Against Women: Intimate Partner Violence and Sexual Violence

Application deadline: April 7th

NIJ is seeking proposals for research and evaluation on violence against women, and specifically intimate partner and sexual violence. For example, NIJ is interested in proposals to examine the effectiveness of specialized police and court-based units, services, and methods related to intimate partner and sexual violence. NIJ is also interested in research on the development, adaptation, and testing of screening tools used for the identification of intimate partner violence in family court proceedings-specifically for cases involving child custody. Although specific areas of interest have been identified, other topics that offer important insights into violence against women will also be accepted for review.

Research and Evaluation on Children Exposed to Violence

Application deadline: April 8th

NIJ is seeking multidisciplinary research and evaluation proposals related to childhood exposure to violence. Such violence may include children who are direct victims and/or bystanders or observers of various forms of violence in the home, school, or community, including but not limited to peer victimization, bullying, harassment, child maltreatment, domestic violence, and community violence. Other types of violence to which children are exposed may be addressed, with the exception of media violence (e.g., television and movie violence, music advocating aggression, and violent video games). In particular, NIJ seeks proposals that address justice system responses to children identified as being exposed to violence; polyvictimization and multisystem involvement; and resilience and help-seeking.

Social Science Research on Implementation, Dissemination, and Translation

Application deadline: April 9th

NIJ seeks proposals for funding projects to study how criminal justice practitioners use research in their decision-making processes and how they implement evidence-based programs or practices. NIJ proposes two distinct research activities under this solicitation.

- Incorporating the Use of Research in Policy Decisions.
- Implementation Studies.

Applicants may apply to one or both sections of the solicitation; however, proposal titles should clearly identify the section of the solicitation for which the proposal is being submitted.

FUNDING OPPORTUNITIES (CONTINUED)

Department of Justice (DoJ) and National Institute of Justice (NIJ) New Solicitations (continued)

Secondary Analysis of the 2010 National Intimate Partner and Sexual Violence Survey (NISVS) Data: General Population and American Indian and Alaska Native Samples

Application deadline: April 9th

NIJ seeks proposals for secondary data analysis of the 2010 National Intimate Partner and Sexual Violence Survey (NISVS) data. Noting a critical need for a national surveillance system that would produce frequent, consistent, and reliable data on the magnitude and nature of intimate partner violence, sexual violence, and stalking using consistent definitions and survey methods to evaluate trends over time, the CDC's National Center for Injury Prevention and Control (NCICP), in collaboration with NIJ and the Department of Defense (DOD), developed the National Intimate Partner and Sexual Violence Survey (NISVS). The collaborative effort among federal agencies was motivated by the need to improve our understanding of IPV, SV, and stalking in the civilian, military, and American Indian (AI) and Alaska Native (AN) populations.

Research on Bias Crime Victimization

Application deadline: April 13th

NIJ is seeking proposals for research and evaluation relating to bias crime (a.k.a. hate crime) victimization. As compared with analogous crimes, bias crime is associated with more negative outcomes for victims and communities. NIJ is particularly interested in funding research to:

- Develop and test screening and/or assessment tools to identify bias crime victims.
- Conduct localized victimization surveys using new and innovative sampling strategies to understand hate crime among immigrant and other understudied communities.
- Explore the use of non-traditional data sources to track bias crime victimization.

Research and Evaluation Examining Violence Against American Indian and Alaska Native Women: Domestic Violence, Homicide, Intimate Partner Violence, Sex Trafficking, Sexual Violence, Stalking, and Teen Dating Violence

Application deadline: April 15th

NIJ is seeking proposals for research and evaluation that will examine violence and victimization experienced by American Indian (AI) and Alaska Native (AN) women living in Indian Country and Alaska Native villages to produce a deeper understanding of the issues faced by Native American women and help formulate public policies and prevention strategies to decrease the incidence of violent crimes committed against AI and AN women. NIJ is especially interested in research and evaluation related to violence against AI and AN women in the areas of domestic violence, homicide, intimate partner violence, sex trafficking, sexual violence, stalking, and teen dating violence.

Applicants must register with Grants.gov prior to submitting an application.

For all NIJ Funding Opportunities and application details, please visit their website: <http://nij.gov/funding/Pages/current.aspx>

Consumer Product Safety Commission (CPSC) Pool Safely Grant Program (PSGP)

Application deadline: March 19th

Maximum grant amount: \$250,000

CPSC is pleased to announce the *Pool Safely* Grant Program (PSGP), listed under Funding Opportunity Announcement (FOA) CPSC-15-001.

This opportunity is open to state and local governments that can demonstrate that they have enacted or amended a state or local law that meets the requirements specified in Section 1406 of the VGB Act (15 U.S.C. § 8005) and that the applicant provides for enforcement of the law. Once grant applications have been reviewed and scored, CPSC anticipates awarding a total of \$1 million in awards. Grantees will implement enforcement and education programs to prevent the drowning and drain entrapment of children in pools and spas, as authorized under Section 1405 of the Virginia Graeme Baker Pool and Spa Safety Act. Additional information and technical assistance may be found at <http://poolsafely.gov/grants/VGBFY15>.

If you have any questions regarding this funding opportunity, please contact Ann Piesen, CPSC Grant Manager at 301.504.7261.

ANNOUNCEMENTS

Staff Meeting

There will be a staff meeting on **Monday, February 23rd from 1-2PM.**

Safety 2016 – the 12th World Conference on Injury Prevention and Safety Promotion

Location: Tampere, Finland

Date: September 18-21, 2016

Injuries - violence and unintentional - are a major burden on public health worldwide. While experts in injury prevention and safety promotion recognize the need for action, the state-of-the-art knowledge and practice from these fields are not consistently applied to policies and programmes on the ground. The main theme for Safety 2016 – “From research to implementation” - seeks to provoke new ideas and experiences to address this gap.

Safety 2016 is hosted by the National Institute for Health and Welfare (THL) and co-sponsored by the World Health Organization (WHO).

Important dates

Call for abstracts and registration opens: May 1st, 2015

Deadline for abstract submission: November 1st, 2015

End of early bird registration: May 16th, 2016

More information: <http://www.thl.fi/en/web/injury-prevention/safety-2016>
