

HIPRC IN THE PRESS

Dr. Beth Ebel on Pediatric Window Falls

HIPRC Core Member Beth Ebel, MD, MSc, MPH (Associate Professor of Pediatrics, Adjunct Associate Professor of Epidemiology and Health Services) spoke at the May 21st Press Conference on Children Falling Out of Windows. [King 5](#) and [Kiro 7 News](#) have both quoted Dr. Ebel on the hazards of screens without locks or guards in their articles about pediatric window falls during warm weather. The topic has also spurred articles in the [Seattle Times](#).

"This is not a supervision problem," said Dr. Beth Ebel of Harborview's Injury Prevention and Research Center. "I see parents standing right there, the kid is in front of them, in a fraction of a second the fall occurs."

"Screens are not protective. Many, the majority of window falls we see are kids falling through the screen," Dr. Ebel said. "That screen is not designed to bear the weight of a child and so the screen and the kid fall out."

HIPRC ANNOUNCEMENTS

HIPRC At Ingraham High School AP Statistics Class

In the past week, HIPRC Trainee Alex Quistberg, PhD, MPH (T-32 Postdoctoral Fellow in Pediatrics) and HIPRC Staff Member Vivian Lyons, BS, MPHc (Research Assistant for Anesthesiology) went to Ingraham High School and talked to the AP Statistics classes about how statistics work in the "real world" and that statistics is not just a concept from the textbook that they need to learn in order to pass a test.

Save the Date: Summer Student Symposium & Reception

Put it in your calendars now! Get ready to see what the 2015 HIPRC Summer Students have been working on!

Date/Time: Wednesday, July 29th, 11AM-1PM
Event: Final Student Poster Presentations & Reception
Location: HMC R&T Lobby

Date/Time: Wednesday, July 29th, 1-2PM
Event: Certificate/Award Ceremony
Location: HMC R&T Auditorium

Health Resources & Services Administration (HRSA) Public Health Training Centers (PHTC) Webinar

Date/Time: Thursday, June 25th, 11:00AM-12:30PM PST/2:00-3:30PM EST

They have invited Beth McGinty, PhD, MS (Assistant Professor of Health Policy & Management and Mental Health at John Hopkins) to be the main presenter to discuss her study on increased likelihood of cancer and injuries in people with serious mental illness. They have also asked HIPRC Core Member Doug Zatzick, MD (Professor of Psychiatry) to talk about injury and violence prevention for individuals with mental illness.

JOURNAL CLUB SEMINAR SCHEDULE

Section: Safe & Active Transport
Lead: Beth Ebel, MD, MS, MPH (Associate Professor of Pediatrics, Adjunct Associate Professor of Epidemiology and Health Services)
Topic: TBD
Date/Time: Friday, June 5th, 1-2 PM

Section: Methods Core
Speaker: Alex Quistberg, PhD, MPH (T-32 Postdoctoral Fellow in Pediatrics)
Topic: Causal Diagrams (directed acyclic graphs) for Injury Research: Concussion as an Example
Date/Time: Friday, June 12th, 1-2 PM

Section: Injury Care
Lead: Saman Arbabi, MD, MPH, FACS (Professor of Surgery)
Topic: TBD
Date/Time: Friday, June 19th, 1-2 PM

All Journal Club Seminars will be held in the HIPRC Conference Room (#4075), [HMC Patricia Steel Building](#)

Calling all HIPRC Associate Members to please contact Tanya at hiprc@uw.edu to schedule leading a Journal Club.

HIPRC WEEKLY WORK IN PROGRESS (WIP)

Speaker: Mahmud Mossa-Basha, MD (Assistant Professor of Radiology)
Topic: Spinal Cord Injury Trauma
Date/Time: Wednesday, June 10th, 1-2PM

Speaker: Bonnie Duran, DrPH, MPH (Associate Professor of School of Social Work, Adjunct Associate Professor of Health Services)
Topic: Violence & Alcohol Harm Reduction Intervention with TCU
Date/Time: Wednesday, June 17th, 1-2PM

Speaker: Randall Curtis, MD, MPH (Professor of Pulmonary and Critical Care Medicine, Director of UW Palliative Care Center of Excellence)
Topic: Cambia Palliative Care Center of Excellence and Palliative Care Research
Date/Time: Wednesday, June 24th, 1-2PM

There will be no WIP on Wednesday, June 3rd due to an HIPRC Faculty Meeting

All WIPs will be held in the HIPRC Conference Room (#4075), [HMC Patricia Steel Building](#) 

OTHER ANNOUNCEMENTS

Low Cost Life Jacket Sales

See [flier](#) for information on low cost life jacket sales at Evans Pool (Green Lake).

Big 5 Life Jacket Coupons

Coupons can be used at Big 5 Sporting Goods from April 1-September 30, 2015 in Washington and North Idaho. Coupons and usage information found [here](#).

Seattle FREE Summer Swim Lessons

Seattle Parks and Recreation is offering free summer swim lessons ([mid-day](#) and [evening](#)) for youth ages 6 to 16. Please share the fliers with youth, families, and communities and encourage them to attend!

Seattle's Vision Zero Plan

Seattle's new plan to end traffic deaths and serious injuries by 2030. Learn more [here](#).

FUNDING OPPORTUNITIES

U.S. Consumer Product Safety Commission (CPSC) Pool Safety Grant Program (PSGP)

Deadline: Wednesday, August 19th

Amount: \$250,000 maximum

CPSC is pleased to announce the Pool Safety Grant Program (PSGP), listed under Funding Opportunity Announcement (FOA) CPSC-16-001. Successful applicants will be awarded 1-year grants to implement both enforcement and education programs to prevent the drowning and drain entrapment of children in pools and spas, as authorized under Section 1405 of the Virginia Graeme Baker Pool and Spa Safety Act.

This opportunity is open to state and local governments that can demonstrate that they have enacted or amended a state or local law that meets the requirements specified in Section 1406 of the VGB Act (15 U.S.C. § 8005) and that the applicant provides for enforcement of the law. Once grant applications have been reviewed and scored, CPSC anticipates awarding a total of \$1 million in awards.

CPSC will host a **Technical Assistance Webinar** on **Wednesday, June 17th from 11:00AM-12:30PM PST**. This webinar will provide an overview to potential state and local government applicants about the PSGP (CPSC-16-001) eligibility, requirements, and application process. Please register at <https://attendee.gotowebinar.com/register/7654886081154630913>. Registrants will receive an email with the webinar link and audio conferencing line information. **Additional information and technical assistance may be found at <http://PoolSafely.gov/grants/VGBFY16>.**

If you have any questions regarding this funding opportunity, please contact Ann Piesen, CPSC Grant Manager at (301) 504-7261, or at mgrants@cpsc.gov. CPSC strongly encourages potential state and local applicants to contact CPSC if they have questions regarding eligibility, the use of funds, or about registration.

JOB OPPORTUNITIES

UW Department of Surgery - Surgical Outcomes Research Center Project Coordinator Lead

The areas of responsibility of this position fall into these categories:

- *Research Project Administration and Management (40%)* including research study planning, milestone planning, milestone oversight, management of the investigative team, study operations reporting, and management of sponsor reports.
- *Human Subjects Research Coordination (40%)* including regulatory management, participant activities, data collection and management, data analysis and reporting, and compliance oversight.
- *Research Personnel and Resources Management (20%)* including research fiscal management, management of the investigative/staff team, general study leadership, and supervision of junior staff.

Interested candidates can learn more and apply through [UW Hires](#) (Req #119719).

To learn more about the Surgical Outcomes Research Center, please visit their website: <http://uwsurgery.org/divisions/surgerycenters/sorce/sorce-intro>

HIPRC ANNOUNCEMENTS

Dr. Mock, Editor for the Disease Control Priorities, 3rd Edition (DCP³)

The World Bank will publish the nine volumes of *Disease Control Priorities, 3rd Edition (DCP³)*, in 2015-16. DCP³ will summarize and synthesize evidence of the effectiveness of global health interventions and provide comparative economic evaluation of policies to implement those interventions. The first volume, *Essential Surgery*, identifies 44 surgical procedures as essential on the basis that they address substantial needs, they are cost effective, and they are feasible to implement.

HIPRC Core Member Charles Mock, MD, PhD, MPH, FACS (Professor of Surgery, Epidemiology, and Global Health) was one of the editors for the *Essential Surgery* volume. He helped edit chapters on Surgery & Trauma Care (Ch. 3), Organization of Essential Services & the Role of First-Level Hospitals (Ch. 12), and Prehospital & Emergency Care (Ch. 14). There was also an [article](#) published in the *Lancet*.

Beth Ebel on Distracted Driving on National Public Radio (NPR)

HIPRC Core Member Beth Ebel, MD, MS, MPH (Associate Professor of Pediatrics, Adjunct Associate Professor of Epidemiology and Health Services) was interviewed by NPR on distracted driving. Dr. Ebel talks about what can distract us when we drive and what happens in our brain when we try to split our attention.

Original article: <http://kuow.org/post/distracted-driving-goes-beyond-texting>

CIREN Team Receives 20th Year of Funding

Project Title: Crash Injury Research & Engineering Network ([CIREN](#))
Principal Investigators: Eileen Bulger, MD, FACS (Professor of Surgery)
 Robert Kaufman, BS (Senior Research Scientist Engineer for Surgery)
 Jarrod LaFountain (Research Coordinator for Surgery)
 Susan Mastroianni, RN (Research Nurse for Surgery)
 Megan Nelson, BA (Research Consultant for Surgery)
Funding Organization: [National Highway Traffic Safety Administration](#)
Funding Period: May 2015 – May 2016

Coulter Foundation Award for Smart Anesthesia Manager

Project Title: Evaluation of Smart Anesthesia Manager™ (SAM) Integrated with Multiple Anesthesia Information Systems to Deliver Real-time Decision Support and Guidance Funding Source
Principal Investigator: Bala Nair, PhD (Research Associate Professor of Anesthesiology)
Co-Investigator: Monica Vavilala, MD (Professor of Anesthesiology and Pediatrics)
Funding Organization: [Coulter Foundation](#)
Amount: \$130,234
Funding Period: June 2015 – May 2016

Save the Date: Good-Bye Party for Katy Flynn-O'Brien, Roxanne Guiney, Vivian Lyons, & Malaika Schwartz

Date/Time: Friday, June 12th, 12:30-1:00 PM
Location: HIPRC Conference Room (#4075), [HMC Patricia Steel Building](#) 
 Katy, Roxanne, Vivian, and Malaika will be leaving HIPRC at the end of June. Katy will return to her surgery residency at HMC, Vivian will be working on her MPH Epidemiology practicum this summer, Roxanne will be increasing her time as Research Assistant in the Department of Psychiatry, and Malaika is beginning her new job as a Research Scientist 2 in the Department of Family Medicine.

Save the Date: Summer Student Welcome Lunch

Date/Time: Monday, June 22nd, 12PM
Location: HIPRC Conference Room (#4075), [HMC Patricia Steel Building](#) 
 The new 2015 Summer Students are arriving soon, and we would like to invite HIPRC faculty, staff, and project mentors to a welcome lunch to meet the summer students. **Please RSVP to hiprc@uw.edu by Wednesday, June 17th if you plan on attending.**

HIPRC ANNOUNCEMENTS (CONTINUED)

HIPRC Mentees & Coauthorship Figure

Many of you have seen the amazing poster produced by former HIPRC T-32 Injury Fellow [Janessa Graves, PhD, MPH](#) (Assistant Professor of Nursing at Washington State University) by the front desk and have asked about how it was created and how to interpret it.

Here is some more information from Dr. Graves:

- The figure represents co-authorship networks for publications (N=251) identified in PubMed (April 2015) for which authors include both Fred Rivara and a mentee. The mentee list was derived from the 122 names provided by Maria a couple of weeks ago and may not be complete. This figure only includes publications indexed in PubMed. Alternate forms of mentee names were not searched, only full names provided by Maria were used for mentees (e.g., I did not include "Murray, Chris" for Christopher Murray). For Fred, I used various name combos to identify his publications (Rivara, FP; Rivara, Frederick; Rivara, Fred; Rivara, Fred P.; Rivara, Frederick P.). (It was too time consuming to do this for all mentees, and I do not know them all so do not know all possible variations of their names, including maiden names if applicable.)
- In the figure, each node (circle) is a person that is a coauthor on a paper that lists both Fred and a mentee as a coauthor as well. There are 587 circles/names in the figure – 122 are former mentees of Fred (20.8%).
- In terms of the lower right-hand part of the figure, these represent a group of publications that include Fred (and a mentee) that are a singular group that do not really share ties with the other publications in terms of collaboration. (You can think of this figure a bit like a social network.) Specifically, these are the publications that arose from the Global Burden of Diseases, Injuries, and Risk Factors Study 2010 (with Chris Murray and IHME colleagues). I am sure Fred could identify other clusters as well. For example, in the lower left corner, the light blue cluster of authors represents 2 studies in 2007 (Bahman Roudsari first author).
- Fred is obviously the center of the figure because he is the center of this social network. Individuals with many different colored lines emanating from them illustrate authors with many connections in the network.
- This figure isn't perfect. Some folks may be omitted because of spelling errors or variations in names (see note above about this). An individual may also be listed twice if my search of PubMed picked them up as, for example, "O'Connor S." but on another paper he is listed as "O'Connor S.S." (and that latter article also included another mentee, which is why it was still picked up by the search). This is the case for a dozen or so people. (Fred is actually listed twice as Rivara FP and Rivara F, I'm not sure why/how – please see last point below.)
- I apologize for any mistakes and errors – this was done quickly and for fun, and I had never done anything like this before (used 2 new software programs in the process). I am sure, with more time, I could have created a figure without errors and potentially more meaningful. I wish had been able to color code mentees, or bold them, but didn't have the time. I honestly did this in a couple of hours.

If you would have further questions, please contact Dr. Graves at janessa.graves@wsu.edu.

UW MPH Student Seeking Research Position

A UW MPH student with experience in global health, project management, manuscript preparation, and strong faculty references is seeking a research position starting July 1st. CV and contact information available from Harriet Saxe (harriet2@uw.edu).

Webinar: Emergency Departments: A Key Setting for Suicide Prevention

Date/Time: Tuesday, June 16th, 11AM-12PM

With close to 500,000 patients visiting emergency departments (EDs) for self-inflicted injuries each year (NEISS, 2012), EDs have a pivotal role to play in preventing suicide. However, EDs face challenges addressing the needs of suicidal patients due to the fast-paced environment, the complex nature of suicide, stigma, and barriers to accessing follow-up care. This webinar will bring together experts in emergency medicine, emergency psychiatry, and research to: describe the rationale for ED-focused suicide prevention; discuss barriers and solutions to integrating suicide prevention in EDs; and introduce a new guide, *Caring for Adult Patients with Suicide Risk: A Consensus Guide for Emergency Departments*.

Please register at: <http://www.sprc.org/training-institute/r2p-webinars/emergency-departments-key-setting-suicide-prevention>

HIPRC IN THE PRESS

Fatal Overdoses Linked to Heroin Spike by 58% in King County – Dr. Banta-Green

According to a report released by the University of Washington [Alcohol & Drug Abuse Institute \(ADAI\)](http://www.adai.org), fatal overdoses linked to heroin surged by 58 percent in King County last year, fueling the steepest rise in local drug-caused deaths in 17 years. HIPRC Associate Member and ADAI Senior Scientist Caleb Banta-Green, PhD, MSW, MPH (Affiliate Assistant Professor of Health Services) is quoted in an article by the [Seattle Times](http://www.seattletimes.com), who calls the trend distressing. "I knew it was going to go up," he said. "I didn't know it was going to go up that much." The report results have also been picked up by [MyNorthwest](http://www.mynorthwest.com) and the [Seattle Sun Times](http://www.seattlesuntimes.com).

Writing/Designing Winning NIH Proposals Workshop

Date/Time: Tuesday, July 28th, 8:30 AM - 4:30 PM

Location: University of Washington Botanic Gardens

Cost: \$375

Discounts: There is a \$25/person discount available for groups or a \$135 discount for those who take both the NIH and NSF workshops. Only the highest discount will be applied.

This comprehensive workshop is designed to help you understand the proposal writing and submission procedures for the National Institutes of Health (NIH).

Can't make it? They also have: [An Online Version of this Workshop](#)

WIPIN Seminar: When Safe Routes to School Meets Violence Prevention

Date/Time: Thursday, June 25th, 10-11AM

Register now: <https://attendee.gotowebinar.com/register/8120726068105819649>

Hear from speakers about the impacts of violence on youth and communities, strategies to make routes to school safe from violence and crime, and how we can work collaboratively to create communities where kids can be active and safe.

WIPIN Seminar: Pediatric TBI - A Look at Research and Best Practices

Date/Time: Wednesday, July 15th, 1-2PM

Register now: <https://attendee.gotowebinar.com/register/6343951561895724546>

On average between 2007 and 2010, 4,754 children and youth between the ages of 0 and 19 died from a TBI each year. During the same time period, 3.24 million children and adolescents visited the emergency department for treatment of a non-fatal TBI. That's an average of 810,000 ED-treated non-fatal TBIs among 0 through 19 year olds every year—a rate of 974 TBIs per 100,000 population.

To better understand this issue, Dr. Becky Spicer of the Children's Safety Network (CSN) Economic and Data Resource Center at the Pacific Institute for Research and Evaluation (PIRE) will present data about the leading causes of ED-treated non-fatal TBIs. She will break this information out by age group, intent, and mechanism.

Following that presentation, Bekah Hunt, CSN's training and technical assistance associate, will review traumatic brain injury prevention practices. She'll highlight best practices by what caused the TBI, and child's age/developmental stage. She will also share outcomes and lessons learned from the Community of Practice (CoP) on Traumatic Brain Injury, a CSN led initiative in which 15 states participated between 2013 and 2014.

Finally, Peg Ogea-Ginsburg, leader of the Nebraska CoP team, and director of Nebraska's Injury and Violence Prevention Program will talk about their experience with the CoP, and their work on sports related concussions.

JOB OPPORTUNITIES

HIPRC Communications Officer – PT Position

The HIPRC Communications Officer will work with the Program Manager, Program Coordinator, and Director to provide strategic social media and communications support for the HIPRC. The successful candidate will be responsible for writing and producing a weekly bulletin, and managing and development the HIPRC website, as well as growing and expanding the HIPRC's social media presence via Twitter. The position utilizes a variety of tools to research, write, and produce print and electronic materials for public consumption.

Interested candidates can learn more and apply through [UW Hires](#) (Req #120993).
