Pacific Northwest Authors
GARDEN WRITERS

Special thanks to the individuals and organizations who have contributed these materials to the library.

The Pacific Northwest region is known world-wide for a climate that nurtures both lush native plants and a wide variety of exotic plants for the palette of gardeners. Less well known perhaps are the keen plant explorers and gardeners of the region who have shared their passion through publications. Below is a list of some of these authors who have written about gardening and the gardens of the Pacific Northwest.

Adams, A. B.
