

**Institute for Stem Cell and Regenerative Medicine**  
**Stem Cell Club Meetings 2009-2010**  
**SLU Administration Building Auditorium, 815 Mercer Street**

---

<b>October 7</b>	<b>Christine Disteche, PhD,</b> <i>Professor, Pathology</i>	Dosage compensation of the mammalian X chromosome
<b>December 1</b>	<b>Zhijun Duan, PhD,</b> <i>Senior Research Scientist, Medicine/Hematology</i> <b>Tony Blau, MD,</b> <i>Professor, Medicine/Hematology</i>	Genome architecture sequencing
<b>February 2</b>	<b>Morayma Reyes, MD, PhD,</b> <i>Assistant Professor, Pathology</i>	Muscle stem cells
<b>March 2</b>	<b>Karol Bomszyk, MD,</b> <i>Professor, Medicine</i>	Kinase cascade modules along inducible genes
<b>April 6</b>	<b>Mike LaFlamme, MD, PhD,</b> <i>Assistant Professor, Pathology</i>	Cardiac Repair with Embryonic Stem Cells and the Risk of Arrhythmias
<b>May 4</b>	<b>Dan Miller, MD, PhD,</b> <i>Associate Professor, Pediatrics</i>	Induced Pluripotent Stem Cells to Study Facioscapulohumeral Muscular Dystrophy
<b>June 1</b>	<b>Mike Regnier, PhD,</b> <i>Professor, Bioengineering</i>	Contractile properties of stem cell derived cardiomyocytes
