Kenya Research and Training Center  
Weekly Seminar presents Nicole Naiman

Date: Wednesday, November 8th, 2017  
Time: 12:30 pm – 1:30 pm PST  
Location: Harborview- Ninth and Jefferson Building-Room TBD  
908 Jefferson Street Seattle, WA 98104  
**ALSO--available via Adobe Connect**

Event sponsors  
Department of Global Health  
Kenya Research and Training Center

Presenter: Nicole Naiman

Title: Role of antibodies in vertical transmission of HIV-1

Nicole is a graduate student mentored by Julie Overbaugh in the Medical Scientist Training Program and Molecular and Cellular Biology Program at the University of Washington/FHCRC. Nicole received her B.S. from Ohio State in 2011 and then worked as a post-baccalaureate fellow at the NIH studying KSHV’s response to cellular anti-viral defense mechanisms. In the Overbaugh lab, Nicole’s thesis project is focused on studying passively-transferred maternal HIV-specific antibodies and their role in vertical transmission of HIV-1 in the MB and CTL cohorts.
