THE HOUR HAS STRUCK!

You have ceased your daily labors as a protest nst insufficient wages paid to your fellows.

You have quit your accustomed toil to lend your against the vicious prostitution of power on the of the Emergency Shipping Board. Through its ious meddling a deadlock has resulted where an tment would, no doubt, have been arrived at.

All business agents and discharged soldiers and sainst belonging to the unions met at 7 o'clock last night to perfect their plans of organization for policing.

Arrangements have been made for the supply of milk for babies and the sick, and also for the filling of prescriptions by drug clerks.

In conformity with the spirit of the law and order committee's desire to prevent rowdysm by disinterested persons, it is the earnest desire, after conferring with the officials of the Telephone Operators' Union that they co-operate with the strikers' police division in maintaining order by placing their entire membership, not to-clude the telephone men, at the disport to postpone the disport of the conference of the co

The welfare committee have charge of the health and sanitation of the city in regard to the garbage situation. The committee at this time asks the co-operation of the public to the extent of segregating the garbage; that is, do not put ashes, waste paper, or other trash in an any where you place suffered to the contract of the public to the composition of the contract of the composition of which tends to breed disease. Notice is hereby given that the general strike is ef-fective even with the property of organized labor, in-cluding the Mutual Laundry Company, Labor Temple Cigar Company, Metal Trades Hall Cigar Company, Se-atile Union Record, and the jaintor services applying to these establishments, also Janitor service to Labor Temple.

Labor resents the suggestion that has been expressed by a number of public men to the effect that
rowdysims will be the result of the cessation of work.
We are confident that if the general public will keep their
feet upon the ground the police division of labor will
cooperate with the proper public officials in maintaining iaw and order.

The law and order committee that has been appointed by the executive committee of the general strike committee is now issuing a call upon all union men who have
been discharged from the ranks of either the army or
the navy of the United States government to place themselves at the disposal of the committee. These men will
be requested to assist in preserving peace and order for
the duration of the strike.

With the early issue Thursday of the Seattle Union Record, it will suspend publication by orders of the executive strike committee and will not be published until the general strike shall have been brought to a conclusion. What Shipbuilders Make

That the public may have some idea of the tremendous profits shipbuilders have been making, Bert Swain, secretary of the Metal Trades Council, has issued the fol-lowing statement:

Metal Trades Council, has issued the following statement:

"Compare the wages of the workers with the profits of the shipbuilders. The figures speak for themselves.

"In 1917 the government paid the Seattle yards \$145 per ton for the ships. At this figure the builders were able to pay an increase of \$1.75 per man per day. This amounted to \$7.50 a ton. or \$66,000 per ship of \$,800 tons.

UNREST? OH, NO!

They are suppressing strike news these days. When the Seattle delegation arrived in Chicago at the Mooney Conference, we were astonished to discover the wide unrest prevailing throughout the land. Big general strikes had tied up the General Electric Company in New York; other strikes of 15,000 to 35,000 workers were raging in various sections.

Company in New York; other strikes of 10.00 to 35,000 workers were raging in various sections.

Some time back our press stopped carrying any news of labor unrest in other countries. It took us in Seattle nearly contribute to verify the near-rotops to Siberia. Only over the sending cost he news of demonstrations in England reach us—the soldiers breaking camp by thousands and sending committees to the War Office, the electrical workers turning off "the juice" in Albert Hall, the most celebrated meeting place in Europe, in order to enforce their demands, the many soldiers, numbers unknown, who wrote "Bolsheviki" across their ballots in the recent election, thus refusing to vote under the old regime.

And now the press abuts down on even the news in our own land if it indicates unrest. The game is to that it alone is obstinate and numbly. In all the rest of the world peace and mutual love between employer and worker reign undisturbed. Unrest? Oh, No:

The cage was a second of the cage of the cage
conference at Stockholm, and the French
munition workers were striking to support
the idea by the tens of thousands, and being
suppressed with an iron hand, by the sending of their leaders to the front line trenches,
our ambassador in Paris was cabling Washington that there was practically no interest
in France in the Russian proposal and that
we need not take the theory of the cage

The diplomats thought he spoke the truth
the diplomats never go out among the people. They have not even a single attache
dropping into the cafes to hear what common
folks are saying. They go only to little diners among the rich.

Of such are the diplomats who think that
the peoples of earth need their guidance lest
they go astray.

Americans ought to raise no objections to a League of Nations. Anyone who is able to manage, say a Base Ball League, like Ban Johnson is, ought to have no difficulty in handling a mere League of Nations. Umpires and managers would have a comparatively easy time in such a League. So we say to the nations, the rooters are ready, play ball, batter up!

Freedom does not consist in the mere absence of legal barriers, but in the actual power tor go and to do.—George Gunton.

It is the prime test of a democracy not that it gets itself well governed, but that within staelf it generates a spirit of self-control and of co-operative purpose.

When will rulers learn that where liberty is not, security and order can never be? For no power which is not limited by laws can ever be protected by them—John Milton.
