| March 30, 2016 | Progress in Developing an HIV Vaccine: Empiricism and a Bit of Optimism | Larry Corey, MD  
Professor, Departments of Medicine and Laboratory Medicine  
Adjunct Professor, Departments of Pediatrics and Microbiology  
University of Washington |
| April 6, 2016 | Megalencephaly Syndromes, Megaplex and the New Paradigm for Molecular Testing for Pediatric Disorders | Ghayda Mirzaa, MD  
Assistant Professor, Center for Integrative Brain Research  
University of Washington  
Genetics Division  
Seattle Children’s Hospital |
| April 13, 2016 | The Rise of Laboratory Medicine                                         | Kate Christofersen, DO  
Resident Physician  
Department of Laboratory Medicine  
University of Washington |
| April 20, 2016 | Pathology of Amyloidosis--Insights from Proteomics                      | Ahmet Dogan, MD, PhD  
Chief, Hematopathology Service  
Departments of Pathology and Laboratory Medicine  
Memorial Sloan Kettering Cancer Center |
| April 27, 2016 |                                                                     | No Grand Rounds, see non-CME accredited activity section, below. |
| May 4, 2016   | Zika: The Edge of Uncertainty                                           | Rugvedita Parakh, MBBS, MD  
Resident (PGY-1)  
Departments of Laboratory Medicine and Pathology  
University of Washington |
| May 11, 2016  | supercalifragilisticpanvirometaphylogenomics                           | Alex Greninger, MD, PhD  
Resident (PGY-1)  
Departments of Laboratory Medicine  
University of Washington |
| May 18, 2016  |                                                                     | No Grand Rounds, see non-CME accredited activity section, below. |
| May 25, 2016  | CD19 CAR T cell therapy for Pediatric ALL: The Seattle Children’s Experience | Rebecca Gardner, MD  
Assistant Professor  
Division of Hematology/Oncology  
Seattle Children’s Hospital |
| June 1, 2016  |                                                                     | No Grand Rounds due to ACLPS. |
| June 8, 2016  |                                                                     | No Grand Rounds, see non-CME accredited activity section, below. |

CME Course Objectives: Upon completion of this program, attendees should be able to:

- List several trends and developments in laboratory testing for the diagnosis, prognosis, and monitoring of disease.
- List several trends and developments regarding improving the quality of clinical laboratory services.
- Apply current concepts in laboratory testing to the diagnosis, prognosis, and monitoring of disease.
- Describe current research in the practice of medicine and how this research might impact the future practice of laboratory testing.

The University of Washington School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Washington School of Medicine designates this live activity for a maximum of 27 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. (Each session is one credit.)

These sessions will not be CME-accredited:

April 27 at Harborview: National Medical Laboratory Professionals Week Service Awards. Contact Rebecca Caulfield for details.
May 18 at 2:30 PM in D209: ACLPS oral presentation practice sessions for residents and fellows
June 8 at 2:30 PM: Medical Laboratory Science program graduation ceremony, reception to follow. Contact Heather Eggleston for details.
