The Department of Pathology invites applicants with an M.D. degree to apply for a position as Director of Cytopathology. The Director will have responsibility for the general supervision of the Cytopathology Laboratory, as well as, related clinical issues, such as quality management processes, operational efficiency and outreach. Applicants should be board certified in Anatomic Pathology and Cytopathology. There are extensive opportunities to interact and collaborate with clinical and research faculty. Leadership skills and excellent interpersonal skills desired. The applicant should have an academic orientation with evidence of scholarly achievement and will be required to be active in both laboratory service and in relevant teaching and research programs. Academic appointment and salary will be commensurate with experience.

The University of Maryland School of Medicine is the first public and fifth oldest medical school in the United States. The School of Medicine was the founding school of the University of Maryland and today it is an integral part of the 11-campus University of Maryland System. On the University of Maryland at Baltimore campus, the School of Medicine serves as the foundation for a large academic health center that combines medical education, biomedical research, patient care and community service. The School of Medicine ranks in the top tier of medical schools and is ranked 8th in research funding at public medical schools. In 2004, external research funding exceeded $280 million.
