The Department of Pathology invites applicants with an M.D. degree to apply for a position as the Director of Hematopathology. Experience in hematopathology should include bone marrow and lymph node diagnostics. In addition, the incumbent will have an active interaction with the faculty and staff of the University of Maryland Greenebaum Cancer Center. Board certification or eligibility is required. The applicant should have an academic orientation with evidence of scholarly achievement and will be required to be active in both teaching and research programs. The applicant should have the ability to develop independent clinical and/or laboratory research. Academic appointment and salary will be commensurate with experience.

The University of Maryland School of Medicine is the first public and fifth oldest medical school in the United States. The School of Medicine was the founding school of the University of Maryland and today it is an integral part of the 11-campus University of Maryland System. On the University of Maryland at Baltimore campus, the School of Medicine serves as the foundation for a large academic health center that combines medical education, biomedical research, patient care and community service. The School of Medicine ranks in the top tier of medical schools and is ranked 8th in research funding at public medical schools. In 2004, external research funding exceeded $280 million.

Please forward curriculum vitae, a brief statement of recent interests, and the names of three references to:
