The Department of Pathology invites applicants with an M.D. and/or Ph.D. degree to apply for the position of Associate Director of the Microbiology Laboratory located in the Laboratories of Pathology in the University of Maryland Medical Center. Experience in molecular and clinical microbiology, to include bacteriology, mycology, mycobacteriology, parasitology and virology is necessary. A minimum of two (2) years experience in a postdoctoral and/or staff scientist position is required. The Associate Director will be actively involved in clinical issues, such as, quality management processes, operational efficiency and outreach. Leadership skills and excellent interpersonal skills are desired. The applicant should have an academic orientation with evidence of scholarly achievement and will be required to be active in both laboratory service and in relevant teaching and research programs. There are many opportunities to collaborate with faculty experts in infectious diseases at the School of Medicine. The Baltimore area is a rich academic environment and in close proximity to many Federal agencies. Academic appointment and salary will be commensurate with experience.

The University of Maryland School of Medicine is the first public and fifth oldest medical school in the United States. The School of Medicine was the founding school of the University of Maryland and today it is an integral part of the 11-campus University of Maryland System. On the University of Maryland at Baltimore campus, the School of Medicine serves as the foundation for a large academic health center that combines medical education, biomedical research, patient care and community service. The School of Medicine ranks in the top tier of medical schools and is ranked 8th in research funding at public medical schools. In 2004, external research funding exceeded $280 million.
