

## Clinical Chemist

The Department of Pathology at Vanderbilt University School of Medicine seeks an experienced board certified Clinical Chemist to assume medical direction of Specimen Receiving and Sendout Services at Vanderbilt University Medical Center. The successful applicant will direct these services that support patient care at Vanderbilt University Hospital and Vanderbilt Children's Hospital. Additional responsibilities include teaching Clinical Chemistry to pathology residents, medical technology students, medical students, and fellows. Vanderbilt University Medical Center is experiencing expansion in many areas, with a top 20 cancer center, Level I Trauma Center, multifaceted organ and stem cell transplant programs, and expansion of basic research programs. This is an exciting period of growth for the Pathology Department, expanding research while maintaining excellence in teaching and service. Located in the heart of Nashville, TN, the university is one of the nation's leading research and teaching institutions, with undergraduate and medical programs contiguous on the same campus. Nashville, the capital of Tennessee, is a growing cosmopolitan area with a population exceeding one million, diverse entertainment, excellent schools, and ready access to outdoor activities.
