

Virology Testing Update

Currently Available

FLEXIBLE mini-tipped.

- ❖ Formerly known as “flu test kit”
- ❖ Use this for ALL naso-pharyngeal VIROLOGY tests.
- ❖ This is an updated product:
MM#51264 (same number and old Stock will be replaced when used)

REGULAR flocked Swab

- ❖ Replacing the frozen media with rayon swab
- ❖ Use for ALL viral testing of lesions, or sites other than naso-pharyngeal
- ❖ Can be obtained by calling Lab X43451 or ordered MM #53905

No more frozen viral transport media!

Both swabs come packaged with universal viral media
Flocked swabs are proven to provide a better yield and are ideal
for all virology tests.
