The LSAMP STEM Student Ambassador Leadership Program for Spring 2020 transitioned to online due to the COVID-19 situation. Currently, we don’t know how fall quarter will look like. We will be updating selected candidates as we receive more information.

**STEM Student Ambassadors receive quarterly stipends during their time with the program.**

As an *LSAMP STEM Student Ambassador*, you will be assisting in the following activities/projects:

1) Create digital content to assist in disseminating program information and activities.
   a. Social Medias: Become the face of the LSAMP social media accounts and connect with students and community partners.
   b. Create Videos and Pictures.
   c. Create Student Profiles.

2) Be assigned a specific STEM RSO and you will become the official liaison between said RSO and the LSAMP Program.

3) Connect with academic departments to disseminate program information.

4) Host LSAMP activities, lead workshops and team leadership activities.

5) Engage on the Student Led Official UW LSAMP GroupMe.

6) Assist in recruiting new LSAMP eligible members to the program in accordance with NSF guidelines.

As an LSAMP STEM Student Ambassador, you commit to:

1) Treat this role as any other academic and professional experience.

2) Support the implementation of workshops and events throughout the quarter.

3) Attend recruitment events outside the weekday and regular day times.

Furthermore, you will be required to:

1) Attend weekly meetings with the LSAMP Team.

2) Attend and be active during all scheduled events the LSAMP Program hosts, whether it be at the LSAMP Center or across campus when your class and work schedule permits.

3) Be available to attend additional meetings with the LSAMP Lead Student Assistant.

4) Assist with other tasks and projects that may arise throughout the duration of the term.

5) Provide a two-page summary report to the Program Coordinator, due a week after the end of the quarter.

6) Provide a photo of your engagement during your experience while on assignment.
In addition, LSAMP Staff and fellow STEM Student Ambassadors assist one another in achieving Student Goals:

The LSAMP STEM Student Ambassador Leadership Program is here to build up University of Washington LSAMP Students into strong leaders and support them in their journey beyond academics. A way in which the Ambassador Leadership Program supports its students is through goal production and achievement.

LSAMP wants the ambassador to use its platform to achieve not only LSAMP’s mission goals and responsibilities but to assist and provide them with a place to grow their goals whether they be LSAMP related, academic, professional and/or personal. Through these goals, LSAMP seeks to help students become well-rounded individuals beyond LSAMP and the university.

The student creates and shares two (or more, if they wish) goals they would like to achieve or begin to work on for said quarter. The student then provides information on how they think the LSAMP Program and the STEM Student Ambassador Leadership Program can assist them in achieving said goals.

If you have any questions or comments in regards to the STEM Student Ambassador role, expectations and eligibility, please email us at: lsamp@uw.edu.

Application is live! Priority deadline is end of day Saturday, June 20, 2020 but application will remain open until all positions have been filled.

*Please note, to be eligible to apply, the student must be an eligible LSAMP Student. LSAMP is a grant program funded by the National Science Foundation (NSF). In accordance to NSF guidelines, students must be in one of their eligible STEM majors and identify as one or more of their 4 target populations for this grant: Black/African-American, Hispanic/Latinx, Native American/First Nations and/or Pacific.
