

**Financial Counseling/Madison Clinic Pharmacy Referral
Co-pay Exemption Request**

Harborview Medical Center strives to provide financial assistance to our patients in need. In order for us to consider your prescription under financial assistance, you will need to be assessed by the staff at Financial Counseling. Please take this form to Room GEC-49 to begin that process. They will provide you with information, ask you some questions, and assess your situation. This process includes providing financial documentation that will determine what level of assistance, if any, you qualify for. At the completion of your visit with Financial Counseling, bring this completed form back to the Pharmacy to obtain your medications.

Directions: (see back of form)

Financial Counseling Section

The patient named below has been assessed for financial assistance by Health Coverage Services.

- Patient is responsible for _____% of total copay amount for this month.
