Guidelines for Capstone Posters

Size: 30 inches wide by 20 inches tall.

Heading: title of your project, and your name and affiliations.

Your poster should have the following **sections**:

- *MCH Concern:* Introduce the concern or problem in terms of scope, severity, or trend.
- *Approach:* Describe the data source you've identified to address the concern and your methods.
- *Findings:* Provide results and include at least 1 figure/table.
- *Implications:* Describe implications for MCH policy or services in the U.S.

Health Sciences Academic Services and Facilities has **guidelines** for creating a poster using PowerPoint at

http://www.uwposters.com/Howto_Powerpoint007_10_24_08.pdf.

The MPH Practicum Program also has **guidelines** at

<http://depts.washington.edu/mphpract/ppposter.html>.

You can print your poster either at UWPosters.com, or at a commercial printer, such as Kinko's. At the UWPosters.com Web site,

http://www.hscer.washington.edu/fileupload/upload_win.html, you can place your print order, upload your file, and view proofs. Or you can take your file to T271 Health Sciences Center.

Examples of last year's posters are at

<http://depts.washington.edu/mchprog/resfest2009#capstone>.
