The Division of Medical Genetics presents:

The 6th Annual
Arno and Gretel Motulsky Lecture

Huda Y. Zoghbi, MD
Professor, Departments of Pediatrics, Neurology and Neuroscience
Howard Hughes Medical Institute Investigator
Baylor College of Medicine

“A neural tipping point: MeCP2 and neuropsychiatric disorders”

Huda Zoghbi is Professor of Pediatrics, Neurology, Neuroscience, and Molecular and Human Genetics and Howard Hughes Investigator at Baylor College of Medicine. She is also the Director of the Jan and Dan Duncan Neurological Research Institute at Texas Children’s Hospital.

Dr. Zoghbi’s interest is in understanding healthy brain development as well as what goes awry in specific neurological conditions. She has published seminal work on the molecular basis of Rett syndrome and on late-onset neurodegenerative diseases. Among Dr. Zoghbi's honors include election to the Institute of Medicine, the National Academy of Sciences, and the Lebanese National Academy of Sciences. Additional awards include the E. Mead Johnson Award from the Society of Pediatric Research, the IPSEN prize in neuronal plasticity, the Bristol Myers-Squibb Neuroscience Distinguished Achievement Award, the Gruber Prize in Neuroscience, the Skolnick Prize, the March of Dimes Prize in Developmental Biology.

Thursday, September 25th 2014
3:30-4:20pm
Hogness Auditorium, A-420

Reception immediately following in the Health Sciences Lobby
RSVP for reception only to seisner@uw.edu
