

*Responding to the Global Refugee Crisis:  
From There to Here*

A free panel discussion with Doctors Without Borders

Tuesday, October 3, 2017  
7:00-8:30 PM PT

Benaroya Hall  
Illsley Nordstrom Ball Recital Hall  
200 University Street  
Seattle, WA 98101

Doctors Without Borders/Médecins Sans Frontières (MSF) invites you to a moderated panel discussion about the medical challenges faced by more than 65 million people currently displaced in the global refugee crisis. The program will focus on the physical and mental health consequences of displacement on individuals and entire communities. Join us to learn more about the specific health care needs of people on the move, and the impact of border closures and other restrictive measures.

Panelists include Jason Cone, Executive Director for MSF-USA, Casey O'Connor, MSF-USA field worker, Dr. Valerie Bemo, Deputy Director for Emergency Response at the Bill & Melinda Gates Foundation, and Floribert Mubalama, Executive Director of the Congolese Integration Network. Together with moderator Ross Reynolds of KUOW-FM, they will discuss the medical needs of refugees and migrants from when they are forced from home until they reach their final destinations.

Please join us for light refreshments at 6:00 PM
