

## MED 557 HISPANIC HEALTH AND HEALTHCARE DISPARITIES

Autumn Quarter 2018  
October 2<sup>nd</sup>-December 4<sup>th</sup>, 2018  
SLN: 18187A  
Tuesdays 5:30-6:30pm  
Videoconferencing class-no classroom location

In 2011 there were 51.9 million Hispanics living in the U.S. making up 16.7% of the total U.S. population and representing the largest and fastest growing population in the nation. Similarly, Hispanics make up the largest ethnic minority population in the WWAMI region. This course will provide the student with an introduction to the Hispanic culture and language, the history of Hispanics in the U.S., Hispanic health status issues, and effective strategies and techniques for working across cultures and linguistic barriers.

The course is designed to help the learner to better understand and more effectively respond to the needs of this growing Hispanic population. Course Contact: NormaAlicia Pino [pino@uw.edu](mailto:pino@uw.edu)
