

Letter of Recommendation Form

NUE UNIQUE SPM WORKSHOP June 23-27, 2008

Nanotechnology Undergraduate Education (NUE) a NSF Program
Using Nanoscience Instrumentation for Quality Undergraduate Education (UNIQUE)

Please provide an assessment of _____ who is an applicant for the summer NUE UNIQUE SPM Workshop at the University of Washington that provides intensive hands-on training to undergraduate students after their second year on scanning probe microscopes (e.g., STM, SFM(AFM), EFM) applied to a variety of areas of research and engineering. The student should possess a strong interest in a career in science or engineering. Please indicate the student's scientific ability and potential. Does the transcript give an accurate reflection of the student's abilities? Comments on the student's involvement in nanoscience/nanotechnology related activities are appreciated.

Your Name _____ Title _____
