

SUMMER 2011 A & B TERM

Intensive Elementary MODERN HEBREW

Earn up to a year's worth of language credit in just 9 weeks!

The Hebrew language has traversed the globe over the centuries. Modern Hebrew, whose unique history reaches all the way to the Bible, is the language of the State of Israel and an essential tool in the study of Jewish and Middle-Eastern culture and politics. The Modern Hebrew language course at NELC will enable students to converse in a basic conversation on everyday topics; compose and understand simple written materials; as well as introduce students to various cultural dimensions of Modern Hebrew. The course will incorporate supplementary material, including newspaper readings, songs, videos and conversational practice.
