

## WWAMI

Obstetrics and Gynecology Third Year Clerkship

Cody, Wyoming

The Ob/Gyn Clinical Clerkship for WWAMI medical students is a new site beginning in the fall of 2011. Your educational experience will include office-based obstetrics and gynecology, hospital based labor and delivery, gynecologic surgery at West Park hospital and Northwest Wyoming Surgery Center, and exams at the Northwest family planning clinic.

West Park Hospital is a 25 bed critical access hospital with a new Women's Pavilion and nursery. There are four Labor/Delivery/ Post partum rooms and two gynecology rooms. We have approximately 250 deliveries per year.

### **Housing**

A furnished cottage will be provided near the hospital/clinic. There is a washer/ dryer, linens, equipped kitchen, a bedroom and study, television and internet.

### **Educational Materials**

Several obstetric and gynecologic textbooks will be available to the students. Our intention is to provide the basics of routine obstetrics and gynecology, both through academic reading and with hands-on patient experience. Computer access is available at both offices and at the hospital.

### **Dress Code**

The majority of the student/patient contacts will take place in a private office setting. Cody is an informal town, but jeans and T-shirt are not acceptable dress. A white lab coat with appropriate student identification, worn over casual professional clothing will be fine. Scrubs will be available for Labor & Delivery. A name tag for hospital access will be provided.

### **Call**

Call for obstetrical deliveries is variable depending primarily on nature. Dr. Williams usually has between 8-15 deliveries per month. There are scheduled cesareans and gynecologic surgeries.

We look forward to having you with us in Cody!
