¹ The MBA programs have a cohort tuition structure (that is, there are different rates for incoming and continuing students). For these programs, it must be understood that the change in tuition is not applied to students but is applied to the rate for a category.

² The DDS program also has a cohort tuition structure. Again, the tuition increase for a given tuition category should not be confused with the tuition increase that will be faced by students in a given cohort.

³ Applied Bioengineering is a one year program beginning August 2016 ending Aug 2017. The fee listed above is for 4 quarters including summer.
