Allied Arts Waterfront		In the spirit of the "Save the Pike Place Market" campaign, Allied Arts is working to replace the Alaskan Way Viaduct with Seattle's next great civic space. We're changing the discussion from "What type of transportation infrastructure should replace the viaduct?" to "What should we do with the neighborhood we call the waterfront?"	Parks and Open Space			<a href="http://www.alliedarts-seattle.org/1_waterfront/_waterfront.html">http://www.alliedarts-seattle.org/1_waterfront/_waterfront.html</a>		
Crown Hill/Ballard Open Space and Recreation Plan	1999	This document describes plans for open space acquisition and improvement in the Ballard neighborhood. In addition to overall plans, the document includes information about specific projects. Several maps are included and may serve as models for approaching open space planning.	Parks and Open Space	Ballard Neighborhood	Davidya Kasperzyk, Groundswell (206-706-3965)		Partial	No
Duwamish Streetends Master Plan		phone conversation with Heather Trim indicated that this plan is not finished or edited and is therefore not currently available for distribution	Parks and Open Space	Duwamish area neighborhoods	Heather Trim, People for Puget Sound (206-382-7007)			
Kiwanis Ravine Conservation Plan		Potential acquisitions to connect and extend existing green space in Kiwanis Ravine. Kiwanis Ravine is just a block east of Discovery Park in Seattle's Magnolia neighborhood. This urban forest and wildlife corridor is home to Seattle's largest great blue heron nesting colony (37 nests in 2000).	Parks and Open Space	East of Discovery Park	Catherine Anstett: (206) 615-0386 catherine.anstett@seattle.gov	<a href="http://www.ci.seattle.wa.us/parks/projects/kiwanis.htm">http://www.ci.seattle.wa.us/parks/projects/kiwanis.htm</a>		
Open Space GAP Report	2001	Seattle Comprehensive plan identifies population and distribution-based requirements for open space. The Open Space Gap report identifies areas that do not meet these requirements.	Parks and Open Space	City of Seattle		<a href="http://www.cityofseattle.net/parks/open_spaces/gap_analysis_report.htm">http://www.cityofseattle.net/parks/open_spaces/gap_analysis_report.htm</a>		
Parks and Recreation Plan	2000	This plan is an updated version of a 1993 Parks and Rec. COMPLAN, a comprehensive plan for parks and recreation concerning open space on a 10 to 20 year timeframe. This updated plan is a "general guide and framework for decisions and policy directions affecting the future of Seattle's park and recreation system." The plan considers three types of open space: "Breathing Room Open Space" includes all dedicated open space; "Usable Open Space" is easily accessible for human use; and "Single Family Usable Open Space." Related Documents:	Parks and Open Space	City of Seattle		<a href="http://www.cityofseattle.net/parks/Publications/Plan2000.htm">http://www.cityofseattle.net/parks/Publications/Plan2000.htm</a>	Partial	Yes

Partnership for Parks		An organization from NYC that provides capacity-building materials for other community organizations that advocate for open space in the region.	Parks and Open Space	New York City		<a href="http://www.itsmypark.org/">http://www.itsmypark.org/</a>		
Pro Parks Art Plan	2002	Art planner Carolyn Law outlines the opportunities for integrating art into new and renovated parks and community centers in two new art plans. Funded by the Pro Parks and Community Center levies, the art plans provide the guide for including art, from initial site evaluation, through artist selection and orientation and final placement.	Parks and Open Space	City of Seattle		<a href="http://www.ci.seattle.wa.us/Arts/publications/publicart/artplans/default.asp">http://www.ci.seattle.wa.us/Arts/publications/publicart/artplans/default.asp</a>		
Pro Parks Proposal	2000	Proposals for development and acquisition of sites funded by the Pro Parks levy opportunity fund.	Parks and Open Space	City of Seattle		<a href="http://www.ci.seattle.wa.us/parks/projects/">http://www.ci.seattle.wa.us/parks/projects/</a>		
Proposals for the Lake Union/Ship Canal and Duwamish River Open Space Systems	1988	This document consists of proposals for greenbelt preservation along the Duwamish River, Lake Union, the Ship Canal, and Elliot Bay. Proposals suggest that funds from the Conservation Futures Tax Program (started 1983) be used for these projects. The document, prepared by Seattle Parks and Recreation Department, contains maps and descriptions of existing conditions and proposed greenbelt systems in each of these areas.	Parks and Open Space	City of Seattle			Yes	No

Seattle Green Map	2005	A Green Map is a locally created map of the environment - both natural and cultural features - that uses the Green Map System's lively, globally shared icons to identify significant sites. Seattle's Green Map goals are to create a local green information resource that tells a unique story about our home - Seattle - that both residents and visitors will appreciate, promote sustainable daily habits and greater awareness of environmental sustainability issues, opportunities, and choices in the "Emerald City," and encourage the geographic discovery of place with values that include: personal involvement and action, collaborative sharing of knowledge and resources, respectfulness, diversity, volunteerism, networking and community-building, and lifelong learning. The Seattle Green Map is currently up in an interactive website version and PDF of a preliminary print version. Relevant map categories for open space planning are Wildlife/Nature viewing, Parks and Gardens, Outdoors and Active.	Parks and Open Space		T.J.
