

UNIVERSITY *of* WASHINGTON

# 3-D PRINTING SYMPOSIUM

---

## Presented by the UW Strategic Research Initiative for Additive Manufacturing

This 2-day symposium will bring together an international audience from industry and academia to discuss the cutting edge of additive manufacturing technologies. A particular emphasis is placed on the interface with functional polymeric materials.

**The event is open to the public** and we warmly welcome students and industry professionals from diverse fields. Together we can create new potential for additive manufacturing technologies that fulfill the needs of emerging services and industry. Attendees of the symposium will have the opportunity to participate in an afternoon poster session to present their own work in 3-D printing.

Thursday June 22 & Friday June 23, 2017 | 9am - 5pm | Kane Hall, 2nd Floor

Cost: \$50 General | \$25 Students
