Federal Highway
Administration

Nathan Belz
Associate Professor
University of Alaska
Fairbanks

Current Issues in Transportation Safety

The safety of transportation infrastructures, such as roads, is affected by different aspects, including planning, design, construction, maintenance and operation, and road users' behavior. In this session, experts in the field of transportation will discuss some of the current issues affecting safety.

TRANSPORTATION SAFETY WEBINAR
OCT 22, 2020 | 11AM - 12:15PM PDT
