UTC Project Information	
Project Title	Characterization of Underserved Population Perceptions and Mobility Needs in Connected-Vehicle and Smarter City Environments
University	University of Idaho
Principal Investigator	Ahmed Abdel Rahim
PI Contact Information	ahmed@uidaho.edu
Funding Source(s) and Amounts Provided (by each agency or organization)	University of Washington PacTrans $175,000 University of Washington $32,500 Oregon State University $32,500 University of Alaska Fairbanks $32,500 Washington State University $32,500 University of Idaho $45,000
Total Project Cost	$350,000
Agency ID or Contract Number	69A3551747110
Start and End Dates	September 1, 2020-August 31, 2021

Brief Description of Research Project	Year-4 Outreach project will execute the following tasks:
	1: Mapping PacTrans Research Outcome to the Center's Theme Areas
	    In this task, the project PIs will review the final reports for completed projects at their institutions and interview researchers to identify the short-term and long-term impacts of the research and map the research outcome to the four Center's themes. As part of this step, the research outcome for each research will be classified into different categories: solution to existing problems, new methods and innovations, policy-focused research, national or regional focus, etc. The result if this task activities will be used to develop an integrated research outcome database
	2: Develop and Disseminate Outreach Materials
	    The integrated database developed as part of task 1 will be used to determine the content of the different outreach materials, considering the target audience and stakeholders, the message to be advocated. Different communication tools and channels will be identified and utilized as part of the project videos, webinars.
