

**University of Washington School of Medicine
Department of Pediatrics**

Pediatric Clerkship Examination Checklist

Purpose: To understand how to do an age appropriate pediatric examination.

Directions: Students are to complete 2 examinations using this form *with at least one* with a Medical Student Office faculty member and the remainder with attending faculty/resident housestaff members.

The 3 required examinations should include a newborn, an infant/toddler less than three years of age, and a child more than three years of age. Return completed checklists to the Medical Student office before the end of your clerkship.
