**Draft Guidance for Industry on Using Electronic Means to Distribute Certain Product Information; Availability**

**AGENCY:** Food and Drug Administration, HHS.  
**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing the availability of a draft guidance for industry entitled "Guidance for Industry: Using Electronic Means to Distribute Certain Product Information."

**SUPPLEMENTARY INFORMATION:**  
The timely dissemination of communications about recalls of FDA regulated products, important drug safety information, and other important product safety information is essential for the protection of the public health. We have encouraged manufacturers to provide such information in a timely manner to distributors, doctors, and others. Over the years, we have worked with manufacturers to promote the use of electronic methods of communication and encourage the use of innovative technologies to disseminate safety information, particularly those that provide a public health benefit. We are making clear in the draft guidance that manufacturers may disseminate the communications discussed in §§ 7.49 and 200.5 (21 CFR 7.49 and 200.5) by e-mail or other electronic methods. The draft guidance also applies to those...

WV PracAct 33-24-136

Filing Written Memorandum of Prescription, Labels Generally; Prescription Defined; Counseling and Patient Profiles.

(a) Every person who prepares, compounds, processes, packages or repackages, dispenses, fills or sells or offers for sale, at retail or in connection with operation of a health care facility, any prescription, shall place the written memorandum of the prescription in a separate file marked and kept for that purpose, and shall affix a label to the container in which the prescribed substance is dispensed bearing the name and address of the pharmacy and registration number of the dispensing pharmacist, or of the prescriber if the dispenser is an intern, the date on which the prescription is filed in the pharmacy's files, the name of the person who prescribed the substance, the name of the patient or customer for whom the prescription was made and directions for use by the patient as directed on the prescription by the prescriber.

(b) "Prescription" means an order for medication by a person licensed and authorized by the State Board of Medicine, the State Board of Dental Examiners, the State Board of Nursing, the State Board of Registration in Podiatry, the State Board of Examiners in Optometry, or the State Board of Veterinary Medicine which is dispensed to or for an ultimate user but does not include an order for medication which is dispensed for immediate administration to the ultimate user. Each prescription memorandum shall be maintained and open for inspection by agents of the Board for a period of two (2) years from the date it is filed.

(c) Pharmacists shall offer to and shall counsel patients if requested, concerning and in conjunction with drugs dispensed pursuant to a new prescription.

(d) Pharmacies shall maintain patient profile records of the dispensing of drugs pursuant to a prescription.

(e) Notwithstanding subsection (a) of this section, if, in the opinion of the pharmacist, an emergency exists whereby the prescriber of the prescription cannot be contacted for authorization and there is a need to refill the prescription, the pharmacist may provide up to a seventy-two (72) hour supply, or the smallest available unit, of the previously prescribed drug, except a controlled substance. Nothing in this subsection shall be construed to require a pharmacist to refill the prescription in the absence of authorization from the prescriber.
