## Search tips & tricks

---

- Very different from PubMed and other biomedical databases
  - Truncation options, e.g. ! Instead of \*
  - Positional operators needed for effective full-text searching
  - Natural language vs. controlled vocabulary
  - Full-text vs links to full-text
- 

## Mindset

---

- Prepare
    - Outline search question
    - Identify synonyms
  - Where would I be if ...?
-
