

Muffy's Thanksgiving Dinner

It was a rainy day

and Fluffy and Muffy,

two kittens, were bored because they couldn't go outside to play. Their mom reminded them that Thanksgiving was

coming soon.

Fluffy and Muffy liked Thanksgiving because they went to their Grandma's and got to play with their cousins. They also liked to eat the dinner their Grandma made for them. Fluffy liked all the food that their Grandma made for them, but Muffy said that some of the food, like the turkey and stuffing, made her feel sick. She didn't like to eat them. "But," Muffy said, "there are lots of other things I can eat. I can eat fruit salad

, cauliflower

and mushrooms

, low protein

rolls and margarine, low protein cranberry bread

, and then I always drink

my formula

with my meals."
