

WHAT MAKES YOU SO SPECIAL?

Everybody's body
Is a body like no other,
Even if they say you look
Like Dad or like your mother.

You are you and no one else—
From your head down to your feet.
You are you, and no one else
Could make the world complete.

Everybody's body
Is as special as can be—
From your fingerprints and curls
To your personality.

No one else dreams your dreams
When you wish upon a star.
No one else but you
Is the person that you are.

What is it that's so special?
Why are you unique?
Maybe it's your smile
That gives you your mystique.

Maybe it's the songs you sing
Or the way you like to draw.
No one else has ever done
Things quite like you before.

Everybody's body grows,
Keeping it's own pace.
It doesn't really matter
If you win the race.

You alone can march along
To the beat of your own drum.
It doesn't matter how fast you go,
But just how far you've come.
