FUNDING AVAILABLE FOR ENVIRONMENTAL RESEARCH AND DEVELOPMENT

ALEXANDRIA, VA, November 2, 2023—The Department of Defense's (DoD's) **Strategic Environmental Research and Development Program (SERDP)** is seeking to fund environmental research and development in the **Resource Conservation and Resilience** program area.

SERDP invests across the broad spectrum of basic and applied research, as well as advanced technology development. The development and application of innovative environmental technologies will reduce the costs, environmental risks, and time required to resolve environmental problems while, at the same time, enhancing and sustaining military readiness.

The Resource Conservation and Resilience program area supports the development of the science, technologies, and methods needed to manage DoD's installation infrastructure in a sustainable way. SERDP is requesting proposals that respond to the following focused Statements of Need (SONs) in Resource Conservation and Resilience:

- Advancing Non-Indigenous Invasive Species Surveillance, Mitigation, or Biosecurity Measures Affecting Military Readiness in the Indo-Pacific Region
- Advancing Sensing and Micro/Mesoscale Climate Modeling for Resilience and Conservation
- Addressing Uncertainties in Ecosystem Carbon Pools and Fluxes

Proposals responding to the Fiscal Year (FY) 2025 SON will be selected through a competitive process. **All pre-proposals are due to SERDP January 9, 2024 by 2:00 p.m. ET.** The SONs and detailed instructions are available on the **SERDP website**.

Learn More About Funding Available Through SERDP

Webinar for the SERDP Solicitations: SERDP Executive Director Dr. Kimberly Spangler, Deputy Director Dr. Andrea Leeson, and the SERDP Program Managers will conduct a webinar "SERDP Funding Opportunities" in mid-November. This briefing will offer valuable information for those interested in new SERDP funding opportunities. During the webinar, participants may ask questions about the funding process, the current SERDP solicitations, and the proposal submission process.

Registration for this webinar is required and will be available soon. If you have difficulty registering, please contact the SERDP Support Office at serdp-estcp.webinars@noblis.org or by telephone at 571-372-6565.
