Health Sciences Building  
1959 N.E. Pacific St.  
Seattle, WA 98195

Jonathan M. Samet is a pulmonary physician and epidemiologist. Dr. Samet has investigated diverse health issues using epidemiological approaches. His research has focused on the health risks of inhaled pollutants—particles and ozone in outdoor air and indoor pollutants including secondhand smoke and radon. He has also investigated the occurrence and causes of cancer and respiratory diseases, emphasizing the risks of active and passive smoking
