

# The Global Health Corps Fellowship

## A new breed of leaders ready to change the world

### WHAT IS GLOBAL HEALTH CORPS?

Global Health Corps is building a community of committed young leaders who share a common belief: Health is a human right. We provide opportunities for talented young professionals from diverse backgrounds to work on the frontlines of the fight for global health equity in year-long, paid fellowships. Our fellows have a measurable impact on the health of the communities in which they work, and continue to draw upon their fellowship experience and the GHC alumni network to deepen the impact they have throughout their careers.

### WHAT IS THE GLOBAL HEALTH CORPS FELLOWSHIP?

The Global Health Corps fellowship is a 1-year, paid fellowship with a non-profit organization or government institution focused on public health. We offer positions in Burundi, Malawi, Rwanda, Uganda, the US (Boston, DC, Newark, New York), and Zambia.

Applicants apply to a specific position within a specific organization and in a specific country, just like applying for a job. Fellows are selected based on their ability to fit that job description, and their fit with the GHC leadership practices.

Fellows are placed in organizations in pairs— one international fellow and one local fellow – creating a fellowship team that is a central part of the fellowship experience.

### BENEFITS RECEIVED AS A FELLOW

- Livable monthly stipend
- Free housing and utilities
- Health insurance
- A professional development grant of \$600
- A completion award of \$1500
- An advising program that pairs fellows with an expert in their area of work or interest
- A two-week Training Institute at Yale University in the United States to begin the fellowship
- An End-of-Year retreat in Uganda to finish the fellowship
- Three multi-day retreats during the year
- Travel to training, placement site, retreats, End-of-Year Retreat and back home
- In-country support with a dedicated program manager
- Accompaniment program led by Still Harbor
