## Pain Research Summer Program

**A NEW summer research opportunity  
offered by the  
Undergraduate Research Program**

Pain represents an immense clinical problem and millions of people in the U.S. alone suffer from debilitating chronic pain.

A 10-week summer undergraduate research opportunity invites UW undergraduates to participate in interdisciplinary research on the treatment of pain and explore related career directions.

### Program Offerings

- **\$4000 Stipend**
- Full-time Research Experience with Faculty
- Career Exploration
- Networking and Social Activities

### 2015 Application Deadline

**Tuesday, February 17th, 2015**

### Eligibility

- UW Undergraduate students
- Rising juniors and non-graduating seniors
- Interest in exploring basic science or clinical research in related to the treatment of pain
- Long-term goals include pursuing a PhD, MD, or MD/PhD

Visit the program webpage for more information and application:
