

Dermatology Arts is a contemporary dermatology practice with locations in downtown Bellevue and Yakima. We are consistently one of the top-rated dermatology practices in Washington State. We are currently looking for a professional, highly motivated, and experience-driven employee to join our team of medical assistants in our **YAKIMA, WA** office.

Our medical assistants work side by side with the physicians in our office and are able to gain a great deal of hands-on experience in the medical field. As an MA, you will learn to conduct patient intake interviews, document medical histories, assist in excisions and biopsies, schedule appointments, receive referrals, send out prescriptions, etc. This is a great opportunity for anyone who is looking to pursue a future career in healthcare. Not only does it allow you to shadow physicians (and get paid while doing it!), but it also allows you to learn medical terminology and charting practices. This is an opportunity to get one step ahead of other candidates looking to pursue medical school, PA school, nursing school, or other healthcare programs. 4 of our MAs have been admitted to medical school, including 2 at the University of Washington.

This position is best suited for graduates who can commit to one or more years of employment. Prior experience as a medical assistant is not a requirement to apply. You will have the opportunity to earn your Medical Assistant certification as a part of your training.

To apply please send a resume, transcript, and anything else you think may assist us in the hiring process to [recruiting@dermatologyarts.com](mailto:recruiting@dermatologyarts.com).
