

DEPARTMENT OF EPIDEMIOLOGY

UNIVERSITY of WASHINGTON
School of Public Health

W

EPI 201: OUTBREAK.

EPI 201: Outbreak Investigation & Response

Take a step into the world of an outbreak investigator! Learn how disease outbreaks – such as Ebola, food-borne illnesses, and pandemic flu – start, spread, and are detected and investigated.

You will explore the social and environmental factors that influence outbreaks, the agencies and systems in place to manage outbreak response, and the role of communications, law, and government.

There are no pre-requisites; all majors are encouraged to enroll. Please be advised that basic math skills are required for the course.
