

## Visit to the University of Washington

1. I am going to visit a lab at the University of Washington.

2. When I get there, I will meet Judy, Anne, or Brenna.

3. These are some of the other people I might meet when I'm in the lab.

4. When I'm at the lab, sometimes I will wait in an area that looks like this. There will be games, toys, and movies to play with if I want.

5. Then, I will do some puzzles with someone who works in the lab.

6. After the puzzles, I will play with some toys with someone who works in the lab.

7. Then, I will get to take a break for lunch.

8. After lunch, I will do more puzzles with someone from the lab.

9. Next, I will get to move around for a game.

10. I will do my last set of puzzles after the movement game.

11. After the puzzles, I will have my EEG. I will wear a hat that looks like this.

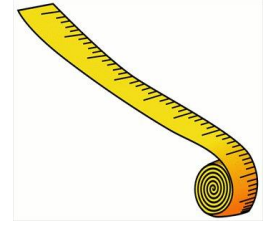

12. Some other things I might do in the lab are:

- a. A blood draw
- b. A visit with a doctor

13. At the end of my visit, Judy, Anne, or Brenna is going to take my picture and measure me.

14. Then, I will be all done!
