

Do You Have a Child between 24 and 39 months old?

IF SO, you may qualify for a research study if your child...

- **Has received a diagnostic evaluation** for concerns about his or her development after 24 months of age; OR
- **Is scheduled for a diagnostic evaluation** that will take place before 40 months of age.

This study involves ONE VISIT to the University of Washington that will last about 1½ hours.

During this visit, we will:

- ➔ **Evaluate your child's social and communication skills**
- ➔ **Ask you questions about your child's development**
- ➔ **Pay you for your time and expense**

For more information, please contact our Research Coordinator by calling 206-685-4304 or emailing readilab@uw.edu.*

*Please be aware that we cannot assure confidentiality of email.

This study is led by Dr. Wendy Stone and is funded through NICHD.
