Subject: Thank You from San Joaquin Delta College

Dear Kualii Colleagues,

We are proud to announce that our Kualii Financial System has gone-live as of today, July 1, 2009! Needless to say, those of us who have worked toward this moment are extraordinarily excited to have reached this important milestone in the development of this new and improved way to do business at Delta College.

A ribbon-cutting was held in Cunningham Center, home of Delta College's IT Department, to commemorate this important moment in the history of KFS, which was attended by Superintendent/President Dr. Raul Rodriguez, and the Delta College IT staff who have worked diligently over the past three years on this very important project.

We have many people to thank for reaching this important step in our process. Without the dedicated help and support of our KFS partners, we would not be celebrating our success. Special thanks to Damon Dorsey, Charlie Sinex, Marilyn Kisters, and Bill Overman who spent precious time in California training our staff; Sharon Antonucci, Satish Vijayan, Susan Konzem, Chuck Kensicki, Keiko Takahashi, Keith Showers, Tony Potts, and Mike DeSimone of our rSmart team, who are always there to catch us before we fall; and all our KFS Community partners, without whom this day would never have been possible!

We offer our deepest and most heartfelt "thank you" to each and everyone who has labored to make this day a reality. We have come so far with your support, and we look forward to continuing to grow our Kualii partnership in the months and years ahead.

Dr. Jon C. Stephens
Vice President of Business Services
San Joaquin Delta College
