EXPLANATION OF AND RATIONALE FOR PROPOSED CHANGE

For new program, please include any relevant supporting documentation such as student learning outcomes, projected enrollments, letters of support and departmental handouts. *(Use additional pages if necessary).*

There is a growing demand from local and national businesses for undergraduate business students who are well versed in operations and supply chain management and have the quantitative skills necessary for many of the jobs in the current market. Over the years, Foster undergraduate students have also been inquiring about the possibility of pursuing an academic track focusing on these topics. The proposed new Operations and Supply Chain Management option will provide students with the necessary knowledge and skills to thrive in the workplace. It will also serve to bridge the gap between student training and business needs.

OTHER DEPARTMENTS AFFECTED

List all departments/units/ or co-accredited programs affected by your new program or changes to your existing program and acquire the signature of the chair/director of each department/unit listed. Attach additional page(s) if necessary. *See online instructions.
