## 1. How many episodes of vasculitis has your patient experienced?
- [ ] One
- [ ] Two
- [ ] Three
- [ ] More than three

How would you characterize the vasculitis?
- [ ] Discreet episodes with long intervals in between (> 3 months between episodes).
- [ ] Relapsing chronic disorder with short vasculitis free intervals (< 3 months between episodes).
- [ ] Other (specify) __________________________________

## 2. Over what time period did these episodes occur?
- Months ____________
- Years ____________

## 3. Which of the following therapeutic options have been used to treat the vasculitis? (check all that apply)
- [ ] Continued at same dose
- [ ] Continued at a reduced dose
- [ ] Interrupted then resumed at same dose
- [ ] Interrupted then resumed at reduced dose
- [ ] Discontinued
- [ ] Steroids (specify route/dosage) _____________________
- [ ] Other immunosuppressants/therapy (specify) ______________

## 4. Etiology

#### a. Please check any predisposing factors for your patient.
- [ ] Immunoglobulin factor elevated
- [ ] Rheumatoid factor elevated
- [ ] Diabetes Mellitus
- [ ] Other (specify) _____________________________

#### b. Are flare ups related to any of the following?
- [ ] Infection
- [ ] Injury
- [ ] Increase in ANC (level) _________________________
- [ ] Reintroduction/dose increase in G-CSF
- [ ] Other (specify) __________________________

#### c. Other medications (specify) _____________________
