Date: _____ Quarter/year of registration for Fish 495: _____

Name: _____
Last First M.I.

PROJECT INFORMATION

Title of Capstone Project: _____

Quarter started project: _____ Targeted completion quarter: _____

If you have not previously turned in a Capstone Proposal to Student Services, you must turn one in with this form.

Do you agree to allow your capstone project paper to be on file at SSO as a resource for other students? Yes No

Do you agree to have your capstone project abstract posted on the SAFS Student Services webpage as a resource for other students and to show the types of projects in which our undergraduates are involved? Yes No

ACKNOWLEDGEMENT OF RISK

For the student, please read this statement. Your signature below indicates that you understand:

"I acknowledge that there may be certain risks inherent in participating in independent research, capstone or internship experiences, depending upon the site and duties. I will take responsibility for discussing these foreseeable risks with my worksite supervisor and faculty sponsor. I acknowledge that all risks can not be prevented or predicted and I agree to assume risks beyond the control of the University of Washington. If I ever feel unsafe/uncomfortable about a situation, I know that I should speak with my worksite supervisor or faculty sponsor immediately. Should I require emergency medical treatment as a result of accident or illness during a field/lab experience, I consent to such treatment and agree to be financially liable for it. I acknowledge that the UW does not provide health and accident insurance, and also that I've been encouraged to purchase such insurance myself. Other insurance may be available at the facility where I am doing my independent research/internship and it is my responsibility to confirm this coverage there."

STUDENT: _____ Date: _____

Printed Name: _____ Email: _____

FACULTY SPONSOR: _____ Date: _____

Printed Name: _____ Email: _____

WORKPLACE SUPERVISOR (if applicable): _____ Date: _____

Printed Name: _____ Title: _____

Email: _____ Phone: _____

In order to receive an entry code for the second quarter of the project (Fish 495), the student will need to have turned in an approved Proposal to Greg Jensen's mailbox in FHS 115 by the end of the fourth week of the quarter enrolled in Fish 494 and turn in a Fish 495 form. This will signal that the student is making adequate progress and that an entry code should be given.
