

## Application and Acceptance Process

Candidate students must submit applications to the PharmD, respective PhD, and PharmD/PhD Concurrent Degree programs separately. The applicants will be reviewed by all three programs. Consideration for admission to the PharmD/PhD Concurrent Degree Program requires acceptance by both the PharmD and PhD Programs. Acceptance to one program and not the others will preclude entry to the PharmD/PhD Concurrent Degree Program. However, the successful applicant to either the PharmD or PhD program will have the option to enroll in the program in which he or she is accepted.

The following table illustrates a number of acceptance scenarios.

<b>Program</b>	<b>Application</b>	<b>Acceptance to PharmD/PhD Program</b>			
PharmD	Required	Yes	Yes	No	No
PhD	Required	Yes	No	Yes	No
<b>PharmD/PhD</b>	<b>Required</b>	<b>Yes</b>	No	No	No
